## FOREWORD

BY BILL SKILES

*"Jesus answered and said unto them, Go and shew John again those things which ye do hear and see: The blind receive their sight, and the lame walk, the lepers are cleansed, and the deaf hear, the dead are raised up, and the poor have the gospel preached to them. And blessed is he, whosoever shall not be offended in me." John 11:4-6*

"The power and scope of spiritual healing are virtually unknown in our mental and material world. Most people know it only by name and usually by hearsay. Exactly what is spiritual healing? What makes it so different? Why is it totally unlike any other type of healing known to the world?..We will find all the answers, I hope, in these tapes which are to follow." Herb Fitch

This series of talks which were mailed out to students in 1989, were a preparation for the "Chicago Healing Seminar," which took place the following year in 1990. These talks were some of the deepest talks Herb ever made and they certainly deliver on his promise to take us into what he termed, "New Dimensions in Healing."

A serious student will have a meditation and step out of the mind before playing each talk. Thereafter, the student will "let" the Spirit within reveal what they are to hear and uncover from the treasures that are so freely offered.

I invite you to make this journey now and to prepare for even greater and deeper revelations in the classes which later came forth and became the "Chicago Healing Seminar." May you not be offended by the Truth.

### NEW DIMENSIONS IN SPIRITUAL HEALING

*Herb:* From the island of Kauai, greetings from spirit to spirit, soul to soul. It is truly joy to welcome you again to this new series of important healing tapes to help prepare you for the infinite way healing seminar next Easter.

By now you should have your invitation to the seminar and if not then you want one or another one perhaps for your friend. Please get in touch with me at my home.

[Herb Fitch's mailing address followed]

Our healing seminar will begin next Easter on a Thursday night April 12th 1990 and will extend to April 16th. It will take place just outside Chicago at a very lovely resort called Oakbrook Hills Hotel and Conference Center. And I know that our work here will be very very special.

We're going to learn to practice new dimensions in spiritual healing. Many infinite way students do not have a specific idea about the nature and the method of spiritual healing or just what spiritual healing can be and cannot be. Many friends call for a spiritual healing usually there are those who call when everything else has failed. Then there are others who lean heavily on spiritual healing and on the practitioner and all too often they expect only mundane results, not spiritual unfoldment. This seminar will be special in that its purpose will be to make you self sustaining, confident that you are functioning under perfect divine law. To accomplish this we must say many things that we cannot say to normal students. Things that are only appropriate when the issues that we face appear to be life and death. We must speak in more absolute terms because upon you much depends. Some of you may be shocked by what we say but be sure that it is all necessary for your own success.

We're going to brush aside comfortable concepts that lull us into a present dream state until we are ready and awake and not plunge into a flow of seemingly incurable conflicts. This seminar will be unique to many of you if you are a healing practitioner seeking advanced techniques or if you feel an inner calling to be a transparency for the light. I believe this seminar will and can play a vital role in your journey to higher realms of consciousness.

The power and scope of spiritual healing are virtually unknown in our mental and material world. Most people know it only by name and usually by hearsay. Exactly what is spiritual healing? What makes it so different? Why is it totally unlike any other type of healing known to the world? How can society learn to depend on spiritual healing to lift itself above world problems that no man or nation has been able to solve? We will find all the answers I hope in these tapes that are to follow.

One feature above all distinguishes spiritual healing apart from every type of healing on earth. That pearl of great price, that unique feature which is the very substance of all Christ healing and which can govern every student who seeks the invisibility and invincibility and the dominion of divine omnipotence, that feature was revealed on earth when the Son of Man declared,

*“I am the resurrection and the life. He that believeth in me though he were dead, yet shall he live and whosoever liveth and believeth in me shall never die.”*

And that's one eternal truth proclaimed by the Master of Masters, you will find the termination of all disease, the end of every war, the triumph of man over every human problem. The path to life eternal, without an aging process, without disability, without deterioration and without human limitations. Whoever contacts the power of resurrection will radiate Christ healing to the world and will walk in the kingdom of eternal life lifting his brothers on earth. That is what we are here to learn how to do. Spiritual healing is the gift of God to his eternal son. These Christ words make every man a spiritual healer, who hears them within. They are the words of power direct from divine source. They are the substance of divine life and they are backed by the unlimited resources of infinite spirit. These words tell us another secret that no man is a healer only Christ power released through man, through his immortal soul can perform the greater works. And finally these words reveal one of the most exciting truths that is destined to change our world. A truth so unsuspected that our realization of it in fullness will make all these baffling horrifying evils on earth dissolve into total nothingness. That truth awaiting your recognition is simply this, please jot it down in your book of things to know forever,

**NOTHING, ABSOLUTELY NOTHING IN GODS CREATION NEEDS HEALING.**

Nothing in Gods creation needs healing. When you truly believe that, know that and are true to the truth of that you will be one of the worlds great spiritual healers because that is your number one healing truth. And know that when you learn it well that the world will beat a path to your door. If you cannot be persuaded that anything or anyone created by God needs healing, correction or improvement you will experience the healing power of Christ. On the other hand if you can be persuaded that something in Gods creation needs healing I can tell you now your patients will not receive divine help because you will be separated from Gods universe in that belief. You will separate yourself. If you believe in a God who is imperfect you are believing in what does not exist. There is no such God and your divided consciousness will deceive you into a false relationship with the God who does exist. Today we must move out of your divided consciousness. We must open your eyes to the healing Christ within, today. We must restore the conviction that divine love, divine wisdom, divine power have no opposition and no opposite. That they are always maintaining Gods perfect creation, everywhere in the universe including where you stand.

So now with your inner ear listen carefully not for sounds but for meaning until your whole being is receptive to a presence within you. A presence with a message from the

kingdom to your soul. A message saying to you with total truth that only your enlightened soul can hear.

“I, I am the resurrection and the life. I am come that ye may have life and have it more abundantly.”

Where the Christ within presents through you this message. The illusions of error will be released in your patient revealing God’s perfect and eternal idea where suffering has fooled the world mind. Christ entering your consciousness is the healer, the miracle worker, the resurrection from the grave of illusion and this inner revelation of the perfect spiritual reality is the true spiritual healing as contrasted to medical, mental, metaphysical, holistic and other types of healing. It is a matter of degree. If we see improvements to make life more bearable in our material consciousness or mental consciousness we overlook the whole self. Physical healing, financial stability, emotional balance can tell us to the most direct route to fulfill these needs to establish peace as quickly as possible. And in our anxiety to restore a relative degree of comfort we seek immediate relief from pain or stress while overlooking a long range recovery needed on higher levels. Without realizing the total possibilities available we fall into a strange trap, we do not expect the maximum from our healers. We seek temporary repairs for human bodies and that is precisely what we get rarely more. Our patch-up job, it may work for a while but later when it fails, if it fails we seek more temporary relief. Psychically, mentally, medically, psychologically, economically never realizing that all our human healings are in the dream, the dream mind, the dream body, the dream life that imitates the true creation of God. So healings are temporary, fragmentary because they are not backed by God power or God substance. The simple fact is that these healings are performed by mortals for mortals in time that God did not create.

And there is still another side to this picture that has never truly been presented to the public. When the patient dies on the operating table where is God power? Does God heal one patient and not another? When a condition is arrested but returned did God change Gods mind? Or was God ever in the picture in the first place? The truth is that the limitations of matter and mind are the limitations of material, mental healing, they are inevitable.

World mind is the very substance of mortality and all mortals are bound by the same limitation through time, space and matter. Mortality worships two powers, good power, evil power. All mortals stumble into this same bottomless pit worshipping a make-believe God who creates good and evil and then impotently stands by while evil powers kill terrorize or violate helpless powers of good.

So you see mortals have a very superficial concept of life. It begins with birth, it ends with death and within this fragmentary framework all so called healings are very shallow, very partial and very temporary just like mortality itself. The function of the spiritual healer is to bypass material law with its belief in two powers, not to deal with human limitations or human bodies. The kingdom of the spiritual healer is not of this world. He never prays to God

outside his own being. He never makes a mistake of treating the symptom of a disease or even of treating the disease itself. This is very important.

When you can learn to dissolve karma, you can transcend pain, you can reveal celestial harmony, boundless peace, wholeness where the human eyes sees disease, disability, even death. All spiritual healing secrets can be learned. We call them esoteric because they are performed by invisible mystical techniques beyond the cognition of the senses of man. Beyond the perimeter of the human brain. They defy understanding but they work when your consciousness is awakened to the invisible spiritual reality around you. And when these mystical principles work for you, when they happen, when they manifest they prove beyond a shadow of doubt that the power of God is available and ever ready to reveal the divinity of all men. Your soul, your spirit, your life are now immortal. The spiritual healer accepts your immortality and contacts the divine life source and lets the resurrecting Christ reveal its perfection, its perfect presence where you stand.

Forsaking all human concepts of health and of life the spiritual healer is one with the truth of God. Voiced in scripture or within his soul. He is never interested in human authorities who are misled by world beliefs. The one, the only authority he obeys is his heavenly father the perfect creator of reality. He is also the father of all spiritual immortals. The garment of spirit is substituted for the garment of skin. The spiritual healer knows his patient is spirit the Son of God. And that his father has laid down the flawless rules of spiritual healing no man can improve them. By obeying these rules, these divine principles invites infinite Christ power to break the hypnosis of the dream, to reveal the pure creation. Without evil, without darkness, to dissolve all karma, to replace the illusion of defective deteriorating mortal bodies and mortal limitations with the original divine blessing of harmony and eternal perfection.

When you experience the change over from human mind to Christ mind which is the renewal of mind spoken of by Paul all things become possible as a spiritual healer living in the spiritual consciousness of life you are God led, God fed, God directed, God sustained. Linked to Christ within you build receptivity to God power. As Christ love pours through you the walls of fear and distrust between people and nations come tumbling down. Water flows over parched land. Divine Joy fills the soul of man with new hope, new understanding, new life.

I found on page 81 in Joel's book "The Thunder of Silence" this statement.

"People of any nation can be saved, of any race, of any family if they have learned to pray and to open themselves so that the voice can speak within them, direct them, lead them, guide them, feed them, clothe them, house them."

Be now in stillness contemplate these words. All nations can be saved, all people can be saved by the resurrecting Christ within you. Within you is the potential for a better world. Release that resurrecting Christ within you and let Christ do the work. This is the task at hand.

Right now God is ISing. You do not have to ask God to be or to do anything at all. You stand in the infinite silence awaiting his living WORD. Don't push that WORD away.

“Father I await your words, your WORD, your grace, I am ready to serve. I am ready to know your truth and to follow it. I am ready to live it daily. I am ready to lay down my life that your life in me may live for I know that your life is my life and I have no other. I am immortal life now. All sense of mortality has been my dream. All sense of a life separate and apart from the father within has been my dream I cannot have such a life that is a world dream and I no longer subscribe to it.”

Now let us plant within ourselves new healing principles based on the knowledge that nothing in God's creation needs healing. Let us open the door of consciousness to infinite God power by trying to understand who and what God really is. Is God a man or is God the creative principle of life? Is God a separate individual or is God my Self and the Self of all? Is God finite or infinite? Does God the creative principle of life, say “It is my good pleasure to give me the kingdom?” Do I trust that? Do you trust that? Does the world trust that? If God is infinite intelligence what can any man tell infinite intelligence that God does not already know? Is God love infinite? Is it available to Saint and to sinner? Then what is hate but a concept. What is stupidity but a concept. If God is infinite intelligence, love and power what is a problem? Is there a God of good and a God of evil? Does God love helping young people and not old people? Did God say, “My grace is thy sufficiency in all things,” to young people as well as to old people? Are God's children under-privileged? Do you see divine truth reveals that God's grace is infinite. God's love, intelligence and power are infinite. God's abundance is infinite.

Then what is wrong in the human picture? We do not believe God. That's the truth. We shorten his kingdom. We believe God is for some not others. We believe there is a power that can keep God's love away from one group, from one race, from one color. We believe there is a power that can cripple, hurt or kill us. We believe that God is not the only power and we accept these anti-Christ powers because we have seen them operate among us. But now we face the real cause of our problem. We have accepted these problems with our human mind. We have not accepted these problems with our Christ mind. Think on that. The same human mind has also accepted you as a human being. That is not the way for a spiritual healer. Now correction must be made.

[silence]

Let us be still a moment longer as we contemplate how we are going to make that correction.

End of Side One

Accept God as your Father. If you do then you must also accept the Word of God. Now God said, "I will never leave you or forsake you." So if you believe on one hand that God will never leave you or forsake you can you on the other hand say, "I have a problem. I am going blind. I am losing my job. My husband is leaving me. My child is deathly ill."

In the presence of God your Father all things are provided. His grace is always your sufficiency in all things. His intelligence always knows your needs and his power always provides these needs. Then what is your real problem? You do not believe that God is your Father and so you cannot believe that God is fulfilling his promise never to leave or forsake thee or to provide a sufficiency of everything you need. And why do you fear? Why do you doubt? Because you are making decisions with a human mind. And that human mind must separate you from God even while God declares that he is inseparable from you. The human mind can never know God. It doesn't matter how honest you want to be, how God fearing you want to be, a human mind can never accept the kingdom which God has already given you. As a spiritual healer you will learn how to use your Christ mind which lives in God's truth. Which knows that God's perfection is your perfection and which refuses to abandon you to mortal appearances, mortal limitations, mortal beliefs.

Let's establish a principle now. We'll call it, *The first principle of your spiritual healing consciousness.*

**1. Perfection is the infinite law of God.**

Whether you're a blind man, a cripple or a thief your Christ mind knows that perfection is always present because God is always present. And when you doubt that perfection is present you are not in your Christ mind.

Now let's establish a second principle.

**2. Your patient has one Father, God.**

And everything God promised you he also promised your patient. That includes love, power, intelligence, abundance, grace in all things. Therefore whatever appearance denies the WORD of God must be a lie, must be a false image without law, without power, without substance. Those are two very simple principles. So let's go on. Only God's perfect child stands before you. Now you know that is true in your Christ mind misperceived by the human mind. Call no man your Father upon the earth. And so the Father of your patient is always God. The one infinite Father of all and God is always maintaining infinite eternal perfection. And if you don't revert to a human mind you will know that is true. When you accept the appearance you're out of Christ mind into human mind and you're no longer a spiritual healer. Christ mind accepts the WORD of God with total faith.

Now these are your two principles which form the foundation, before you even learn techniques. These are the foundations of spiritual consciousness. Everyone coming to you is God's child. Perfect as his heavenly Father. Your spiritual treatment of that patient cannot

begin until you are honoring the principle that this is the child of God before me, made of spirit not matter, perfect as the Father.

And so in your human mind you may find persons objectionable, distasteful or what you call bad character even repulsive. That's not the way of the spiritual healer because it's not the way of truth, its accepting the human mind as a judge. So you cannot be lifted into a rage or resentment and also be a transparency for the light. That is what we call malpractice. Mal-practicing your patient and betraying the reality of your own identity.

Now when Jesus teaches resist not evil, judge not after the appearance he is emphasizing that any reaction to any imperfection is a lie and shuts you off from the power of a perfect God. You must go beneath the surface of that and see to that your non-resistance must also go beneath the surface. Deep hates, superstitions, resentments, feelings from one generation passed on to the next. These must be uprooted so that you can face every individual, every circumstance with equanimity. And when your consciousness even tries to accept every inhabitant of earth as spirit made in the image and likeness of God you will understand why all things that are possible to God are possible to you. And the power of God will begin to pour through you in increased measure. These two monumental principles must become bone of your bone. So please accept this assignment.

Daily develop an automatic acceptance of the divine presence by accepting the divinity of everyone you meet. Deny divinity to anyone, ANYONE! And you remove yourself from divine grace. There is no escape. Each one you see is the invisible divine self. Don't be fooled by the human mask, don't be fooled by disabled bodies. To human eyes divine life is not visible. It may appear to you in a disabled form because mortal vision cannot form an infinite image. Every human error, sin, sickness, evil presents a false sense image about the perfect infinite divine life or what appears to us as persons. You must know the truth, believe the truth, act upon the truth. Only divine life is present. Only the child of God is present, not the visible form. Forgive everyone their seeming indiscretions. See no thief where a thief appears, no adulteress where an adulteress appears. No person where an individual appears. And the light of Christ will bless you with healing power.

Practice 15 minutes daily. More if possible, never less, until you know the life of every patient is divine. And all God has is his. When you have a perfect universe and a perfect patient, not before, you are qualified to perform the functions of a spiritual healer. A transparency for the immaculate divine creation. You are above human judgments, above the divided consciousness that lives in two worlds, one good and one evil.

Now, now you're ready to learn practical techniques to part the Red sea, to move the mountain, to command Lazarus to come forth. The human race would never deteriorate, mothers would never die in childbirth, breast cancer would never be the disease that women fear most. Truth and the discipline to apply that truth can make you an effective servant of God. But you know great healers have even something greater than this, something more that can't be memorized or simulated they possess that intangible essence called Divine Love. This

love coupled with the knowledge and instinct for divine law releases the power of God on earth. If love moves through you animating the healing principles that you learn, nothing is impossible for the power of divine love in the midst of you is infinite without limitation. So with reverence for the divine works we will witness the deepest devotion to the responsibility we are about to share.

Let us now stand in the body temple not made with hands. Meek unto the infinite light, ready to inherit the kingdom of reality.

“Speak Father thy servant heareth.”

These are your healing techniques. Healing revolves around the mystical truth that God is one. Without this sacred truth you are deceived before you start. God is immortal spirit, God is one immortal spirit and there is no other one. There is no God and you. No God and mortality. No God and a patient. No God and a man, woman or child, just God. It may take you a year or even ten years to prove that principle to yourself. But when you practice it faithfully and observe how the truth changes the conditions around you, the appearances and the freedom of your patients, you will know that you have discovered one of the great healing principles that is Christ consciousness. As different from mortal and material consciousness as anything can be. Mortal material consciousness judges. But ask yourself how can you be sick if God is well? Christ consciousness judges no man. It says, “God is not sick so you are not sick because you and the Father are one.”

Remember this important principle, it is called impersonalization. Understand it and your healing practice will be bountiful. Fail to understand it and your ignorance will make healing very difficult perhaps impossible. There is no room for quibbling here. Impersonalize means there are no persons. “Only spirit,” Paul said, “There is neither male nor female, Greek nor Jew,” and here is another tip; Don't waste your breath trying to explain this principle to anyone. They will not understand. Now let's sharpen our understanding of the full meaning and application of the great principle of impersonalization. Later you'll learn how to impersonalize yourself but we'll save that principle until we have established a few other thoughts.

The second principle is nothingness. As you know nothing needs repairs in God's creation because God is a perfect creator. Whatever God created is forever perfect. The Son of God is the spiritual substance of God. The Self of everyone is the spirit of God, perfect forever. Your mind and your senses personalize the spirit of God so that you do not see or experience spirit. You are hypnotized by mortal mind called devil or Satan in the bible into personalizing spirit. Just as you imagine persons where God's spirit is, you imagine conditions in and on these persons. And because the persons are not there, but spirit is, can there be conditions on the person who is not there. When you impersonalize a patient, you realize his reality is invisible spirit. Now you nothingize his condition. Spirit has no conditions. Therefore his condition is as imaginary as anything else that God did not create. The condition does not exist in God's spiritual substance and your patient is God's spiritual

substance. Therefore his so-called condition is not his reality. His perfect spirit is maintained in perfection by God. The material forms that we have accepted is not even a person but a world mind image projected subliminally, seen within ourselves, and imagined through our five senses as an external person.

All persons are the illusion we entertain about spirit. Similarly defects that we seem to see in persons are also illusions as we entertain about people who are not there. Cancer appears in the colon of a person but spirit is the reality of the person. Is cancer in the spirit? No, then where is the cancer. The answer is breathtaking. We have an imperfect concept of God's perfect creation and the cancer is in our imperfect concept. Automatically now we substitute persons for spirit without thinking about it, physical bodies for the one spiritual body without thinking about it and subliminally we give physical conditions to the bodies we have imagined without thinking about it and in this imperfect concept of God's perfect creation we try to live healthy, happy, harmonious, fulfilled lives in peaceful co-existence with our neighbors. And when conflicts arise in the dream we blame it on human greed and lust for power, never suspecting that the fabric of all human lives is a synthetic mental substance that must disintegrate in the illusion of time.

Before healing ourselves and others of human conditions, listen to several important statements from one of the worlds most successful spiritual healers, Joel Goldsmith. And if the words sound familiar it's because you have read them many times. These quotations come from chapter 9 of Joel's book "Thunder of Silence." Quote;

"What we see as body, is not body, it is a mental image within our own thought, a universal mental concept. Individualized within us. There is no such thing as a material body. There is only a material concept of body. There is no such thing as a material universe. There is only a material concept of the one spiritual universe. As long as we accept a material concept of universe we are under the law of matter. But we are free as soon as we begin to understand that we live and move and have our being in the first chapter of Genesis where man is made in the image and the likeness of God, Spirit. And that the soul of God is the soul of man, the life of God is the life of man, the mind of God is the mind of man, the body of God is the body of man."

I might add if you have not read chapter 9 recently in "Beyond Words and Thoughts," give yourself another treat and a treatment. Read it again and you'd be surprised how much you've learned since the last time you read it.

When you impersonalize your patients and nothingize their problems you are following in the footsteps of Christ, then you will notice a change in yourself, a lightness, a strange freedom of detachment because in freeing them from the body concept, you really free yourself and you feel it. You begin to experience your own spiritual body as the temple of the Holy Ghost, the invisible substance of all forms on earth, is God. And to the degree that this truth is realized by your soul the cripple will walk again, the blind man will see again, the nations of the world will lay down their arms and bathe in the pool of infinite love.

Impersonalizing, removing the belief in persons, also means removing criticism of persons. So if you're still judging the sins of an individual you're not an instrument for his healing. As long as you accept persons, personal evil, personal error, personal sin, disease you need as much help as your patient. God is the only creator and God is not the creator of evil. Spirit is the only substance and the spirit contains no evil. There is no person, only spirit. Therefore evil can never be in a person. Evil has no creator. Evil has only the fabric of illusion in which to appear. The illumined realize that all evil is a projection from world mind, which is not a mind and that evil has no person in which it can be. The cancer that frightens us is not in the Spirit of the patient but in the false or illusory world mind which projects the false image of matter into the I of the beholder.

Nothingize is the principle which is the realization that the spiritual creation is infinite without a material opposite and contains nothing, no disease, disability, deterioration, evil, darkness, sin or iniquity for spirit is pure unconditioned, perfect forever. It is wise in advance without waiting for a patient to nothingize all evil conditions. The dedicated healer begins his day everyday by impersonalizing the human race. Eliminating material mortality from his consciousness and then nothingizing all evil.

This is how Joel actually spent his early mornings. Usually from 3:30 A.M. until the clock told him that he was invulnerable to persons and conditions. Jesus himself never faced a sick man or an evil condition. His consciousness was trained to remain above universal hypnotism. "Who convinceth me of sin," he said. Is not the thief on the cross the perfect child of God? Did God create an adulteress or is the adulteress, man's misperception of spirit? Who created the girl in the coma. Which is real God or evil? Is God the only power or does evil have power to change Gods spiritual creation? Can the life of God be sick or die? Always the spiritual healer is faced with a paradox. The lie he sees and the truth he knows. If he fights the lie he loses and his patient's condition continues. If he sees through the illusion of the condition and calmly puts up his sword with confidence that divine perfection is maintaining itself. God's law is working in spite of appearances. Then he stands fast in the face of universal beliefs and his fidelity to spirit will prevail.

We have another healing principle. Because the qualities of spirit are infinite there's no place where there are opposite qualities. Where the life of spirit is, death cannot be. Where the infinite self of God is, no other self can be. So therefore your third principle is a universal truth and that is where you must rivet your consciousness. Principle 3;

### **3. You are Divine Being Now. Your Neighbor is Divine Being Now.**

And you must expand this truth by accepting that because everyone is divine being, God is the only self in God's creation. Now look beneath the surface of these precious words from the infinite one comes the words;

*"All that I have is thine."*

God is the only one, all that God has is thine, so who are you? If you have all that God has and God is the only one, can you handle this truth? Is it too big for you? Are you afraid to know that if you have all that God has, you must be God. And that what you appear to be must be a false graven image. Can you rise to the same pure realization that compelled Christ Jesus to say,

*“I and the Father are one.”*

Impersonalize every patient. Nothingize every condition. Stand in the shocking truth;

**I am the only Self.**

Three indomitable principles for the spiritual healer. One I, Where the patient stands, One I, Where I stand, this is Christ Power.

## TAPE 2

### BREAKING THE ILLUSION OF POWER

*Herb:* From the island of Kauai. It's a joy to send you greetings of love in the spirit of oneness.

Every true spiritual healer knows that he has no personal power. His only function is to learn how to be a pure channel for the grace of God which has divine dominion over all things, which is now functioning everywhere in the infinite invisible, and which is the very substance of all that exists in the kingdom of God – the true creation of the Father. This divine substance is flowing freely as the uninterrupted consciousness of God and of the I Am of every man. And this, this uninterrupted consciousness of the I Am is the miracle worker that lifts the veil of illusion from the human eyes and reveals the perfect harmony that underlies this visible world.

God consciousness as the I Am of you realized maintains God's perfect will in you. Without this miracle substance the spiritual healer is helpless. Truth is adulterated. The seesaw of good and evil takes total control. False powers present false claims. God's perfect creation is clouded by false opposites. And a world of suffering humanity struggles with problems that claim our total attention and refuse to disappear. Quickly the spiritual leader learns that his only hope for bringing order to this chaos is to contact the miracle worker, the I Am in the kingdom of God within himself. And this vital contact demands an ability to walk the middle path between good and evil.

That discipline of the sense mind is emphasized by Joel on page 43 of his *The Art of Spiritual Healing*. Please remember these words. Please practice these words because it is essential to successful healing. I quote:

*"When you can sit beside a very sick person with no trace of fear because something inside of you is singing, 'This is my beloved Son. I in the midst of you am mighty. I will never leave you nor forsake you.' Then you are a spiritual healer."*

Christ Jesus gave us one of the major secrets of spiritual healing when he said:

*"Resist not evil."*

As you and I know, there is more to non-resistance than mere willpower. One of the great obstacles to non-resistance is the human ego and I mean ego in its broader sense. When you find a strong ego you will not find a spiritual healer. The human ego is dedicated first to its own personal identity. And that identity refuses to accept the allness of God. It is committed to God and me. The ego also refuses to die daily. It is too interested in winning applause, getting ahead, proving its superiority. The ego feeds on the attention of others. It is committed to duality. It always sees God and. It separates itself and man from God; prevents

wholeness, harmony, peace. It gives power to illusions. To everyone it says, "You are not the beloved Son of God. You are inferior to me." The superiority complex of the human ego shuts down the pipeline between God and man, and it keeps man out of the very kingdom he seeks.

The spiritual healer must overcome the illusion of a personal identity. That is ego in its broad sense – personal identity, much more than vanity. There is no choice in this matter. Human ego always reacts to the good and to the evil of this world. It sees error, it fears power, it tries to correct error. It changes bad to good if it can. It changes wrong to right. Human ego judges every man. Now spiritual healing is none of this. The indwelling Christ judges no man. One with source is the theme of Christhood. Actually Christ sees human life and human death as the same dream. Christ has no personal identity.

*"Thou seest me, thou seest the Father."*

Christ gives no power to illusion. Christ knows no man after the flesh. Ego sees the drunk. Ego sees the dying. Ego sees the human race. Christ sees God appearing as individual man. And Christ says to all who appear as mortal:

*"Thou art my beloved Son in whom I am well pleased."*

The ego never gets out of the way. Christ within acknowledges only the spiritual identity of the so-called patient – the ever-presence of God without opposite and the non-reality of any appearance of imperfection in the creation of God. Oh yes, the ego is so conditioned to bare false witness. Christ within and only Christ within bares true witness to the perfect invisible universe of divine spirit. Always the spiritual healer who is a transparency for Christ knows that all mortality is a dream, that both virtue and sin are part of the dream, that only spiritual reality exists and in it there are no sinners, no sick people, no dying people, no diseases, no good health, no bad health, no man, no woman, no one here to change correct or improve. The spiritual healer lives and knows the truth that God is the one and the only inhabitant of the spiritual universe. And this sets the healer and the patient free of the claim, free of the appearance of imperfection.

Have you accepted the spiritual reality of mankind? If not it's time we do. And I think right now is that time. In our meditation let us accept one infinite Father and let us see something you may never have thought of, something that is going to prove vital in your healing work. Because there is one infinite spirit – listen carefully – you will never receive more than one patient. Oh each patient will come to you with a new face or a new claim but don't be fooled; there are not many separate patients, it is always the one spirit appearing to you as a separate patient but it is always the same one with a new material face. Oh yesterday a baby needed help. Last night someone else needed help. This morning a woman with a problem needed help. And you're thinking in terms of baby, another person and a woman, but that's the disguise. It's the same patient always – always reporting a new claim, a new body, a new age, and there are no such things. The spiritual healer has one patient and he knows it. He doesn't have to heal that one patient again and again and again and again. Did you know that secret? You know it now because you are learning how to handle every claim that comes your

way. Human life is an endless succession of sense illusions beginning with the illusion of human birth, stopping temporarily with the illusion of human death. Our human view of the entire world is illusion and believe it or not, it has a purpose, it has one magnificent purpose; to train you, to prepare you, to teach you, to convince you, to surrender your dependency on personal resources; to relinquish your belief in your human capacities to solve the conflicts of the mortal world and to raise you to that level called illumination where you realize that only your total faith in the Presence and its perfect power and its infinite wisdom can lift you to higher realms of consciousness. Christ demonstrates this faith repeatedly starting with the wilderness experience and ending with the complete faith in his Father by accepting crucifixion. And always the message was:

*“Go thou and do likewise.”*

As you lose all fear of so-called world powers through your knowledge of indivisible oneness with God, through your confidence in the truth that there is only one infinite self, you will notice more healings are taking through you, for fear separates us from God, whereas faith unites with God and all that is.

And another strange illusion that you should be alerted to, one that you are not apt not to think about too often but I'd like you to think about it now. The illusion of space is a very important consideration and it can take you out of many a problem. Now we have a person calling upon you and asking you to meet a claim. This is your patient appearing to you externally, that is, outside your body is your patient, outside your home and probably outside the city. The patient is there, you are here, so it seems anyway because at first glance there is space between you and the patient. The patient is there; you are here. But wait a minute. Wait a minute. In spiritual healing the concept of space is entirely false. Oh yes, there are two forms – you and the patient – but there is only one I, there is only one Self. How can there be space between one Self? Which is the illusion? The space or the two selves? If one Self is the truth, the space is the illusion. The other way round isn't it? Ah, now go further. The I Christ of you is the I-Christ of your patient. The I-Christ of you cannot be well and the same I-Christ of your patient be sick. In human life we buy into that ridiculous dream, the dream of two-ness – living in different spaces and different bodies, separated, individuals.

But spiritual discernment does not look at superficial surfaces. Spiritual discernment convinces you in your heart soul and consciousness that God is one. That one is universal, unseparated, the body of Christ; the one infinite perfect invisible spirit. Yes, the divine infinite son that your patient is now is always the perfect image and likeness of God and always will be. Never can be a single, separated individual. And with that enlightened consciousness you are impersonalizing your patient. One of the first things we learned in our last tape, impersonalize, now you're doing it. You learn to impersonalize the entire human race. And to identify the invisible divine son in all, and don't forget to include yourself.

Briefly in the silence let us go now to the infinite kingdom of God within and rest there joyously, for you are standing in the only reality. That infinite kingdom within you is the

infinite creation of God everywhere. Accept the infinite I which can never leave you; the inseparable I of spiritual man everywhere. And know this truth. The infinite I, Father, Son within you, can never live in anyone finite or anything finite. In this realization you are blessing the world. As you step out of the changing material dream of separate forms your soul rises above the conflicts and visions of all human thought. The suffering of your patient must vanish as your Christ mind, free of world thought, sheds divine light where the human mind had seen error, darkness and disability in a mentally conditioned universe. I-Christ realized in you is I-Christ in your patient. This activates and awakens your patient from the dream of imperfection and restores the awareness of harmony. This is spiritual healing – Christ healing – and it will lift you into new dimensions of healing that break the illusion of power, illusions that currently hold our world in bondage, and it will reveal the living God to all men and in all men. Thank you Father.

You are living the Infinite Way. That means you are accepting the spiritual identity of the universe and all its inhabitants. There are no human spirits. If a spiritual healer accepts people materially and acknowledges material differences between people he will not succeed. Spirit is neither healthy nor unhealthy, rich nor poor, Greek nor Jew, male nor female; spirit never changes identity; spirit is always spirit neither more nor less. The spiritual healer acknowledges only the spiritual identity of everyone without judgment, without criticism, without resentment. The function of the spiritual healer is to be an impartial instrument for the revelation of God's harmony, God's perfect spiritual creation, God's perfect power. He cannot be trapped into mind identifications, mind consciousness which believe in both good and evil. He can never conceive or acknowledge a conditioned universe which needs correction, nor can he acknowledge the presence of human material bodies. He has no personal likes or dislikes. He walks in a spiritual universe which never needs healing. He loves unconditionally. He forgives because there is nothing to forgive. He accepts spiritual wholeness where human perception sees separate physical forms. He does not stray outside the single eye of soul which knows invisible angels where man sees visible mortals.

Listen carefully again please. You must know that in this Christ consciousness the spiritual healer reveals there is no blind man, there is no adulteress, there is no dead Lazarus. He walks on the Holy grounds of spirit in the omnipresent one Self. Spirit of God is his neighbor, his sole companion – the only inhabitant of the earth.

This spirit of which we speak is a dedicated Infinite Way student now appearing on earth as you. In this consciousness you are about God's business and you are governed by perfect divine life. You are led by perfect divine will. You are nurtured and protected by the glory of divine love, for this is the miracle worker, the undivided consciousness of the Son of God which inherits eternal life. This nonjudgmental Christ in you, as you, knows neither birth nor death and is always complete serving truth and living in celestial harmony. This consciousness calls no man Father upon the earth. The one divine source is his Father which art in heaven. This consciousness says, "I and the eternal, infinite Father are one, spirit

unseparated throughout eternity.” And it is speaking of your identity now. This consciousness says, “In me there can be no error,” because error denies the infinity of God. And so in you error must be a false appearance. Your oneness with God precludes the possibility of error in you. When it appears know that it must be illusion. In this fourth principle you rest with the confidence that you have impersonalized your patient, have nothingized his condition, and now in the spiritual identity of one Self you rest one with the perfect creator, unseparated from the eternal, unseparated from the infinite, unseparated from the creative substance of the universe in which error cannot take form. When you meet daily problems with these healing principles, the life of God lives and expresses as your life.

Walking in the middle path is the way to non-resistance, unswayed by good or evil, anchored in spiritual reality. Spiritual healers have learned, however, that human thought is too easily provoked into reaction. Human thought reacts, retaliates, interprets, but more than making judgment, human thought builds the mental images that take form in the external world of matter which is not the kingdom of God. Human thought recreates reality into material images which man thinks he lives in. Human thought invents good and evil where God’s perfect creation is and then becomes a slave to its own believed created images. Human thought invents strong hearts and weak hearts, healthy bodies and sick bodies, good weather and bad weather. Every problem in our re-created world of images is composed of the synthetic substance which Christ pinpointed in one revealing sentence:

*“Take no thought for your life.”*

For we are not dealing with disease, disaster and destruction, nor are we dealing with death, nor are we dealing with human conditions. We are dealing with human thought which is a counterfeit of divine thought. And it is these projected shadows of human thought without divine substance that present counterfeit persons, places and things to fill our make-believe world.

Come now, which horse do you ride? The white horse of truth of spirit or the many colored horses of the mind, the emotions, human thoughts. Let us ride the horse of spirit, the white horse. Let us in the deep silence build a vacuum, a vacuum of no-thought – no-thought which does not admit into consciousness world thought. No-thought which honors the allness of God, the allness of divine thought, the intelligence of the infinite source. In no-thought we rest with the confidence that our Father knoweth our needs and is filling every need with divine grace.

[silence]

And as we rest here we are building an impregnable fortress so that when world thought knocks at the door of our mind, it finds that only the Christ mind is at home with a clear vision of God’s perfect universe always under divine government. In no-thought you break the world illusion of power and you open the door to the omnipotence of divine thought which has behind it the fullness of infinity to enforce, maintain and sustain all life in the image and likeness of God.

Let's have a short rest and see then what the Father has prepared for us.

End of Side One

Our spiritual healing is that sin, disease, death have no external reality. They exist only as an illusory world belief, a concept. Our concept of this world will keep changing but the reality and the perfection of the spiritual universe which is all that is here will never change. This perfect creation made of self-perpetuating, self-maintaining spirit is the finished kingdom of God, in which no war has ever been fought, no disease has ever appeared, no soul has ever died. The function of your human mind is not to create but to realize that the whole creation of God is already complete. Nothing can be added, nothing can be taken away. The function of your mind is to be an instrument for your soul which expresses divine mind, divine law and divine wisdom. All the infinite qualities of God function through your soul and when your mind is receptive to your soul these perfect qualities come through your soul pure, unadulterated by finite human thought and manifest as the harmony and productivity of your life. The moment your thinking mind makes finite human decisions you shut God out of your life and you remain in the mortal dream of opposites – good health and then bad health, substance and perhaps lack, peace and inevitably war, harmony and discord.

All thought is the great illusion of life but when you stand in the vacuum of no-thought which is the secret place of the most high God makes your decisions. God handles your problems. Source, which knows all, releases truth through your soul, directs your mind perfectly and frees you from the tyranny of false sense perception.

Realization is not visualization. The Infinite Way teaches that your realization of spiritual truth is the miracle healer. Visualization is mental, not spiritual. There is a border line when we try to manipulate matter with our thought, with our will power, and the problem is that we are trying to change bad matter to good matter all in the same material dream. But when you transcend the belief in matter and transcend the finite, distorting human mind, you are above mental visualization in the realm of soul realization where illusions of matter melt. The world of the senses loses its false power and spiritual consciousness reveals the grace of the infinite maintaining a sufficiency for all your needs. Remember the difference between realization and visualization.

In the spiritual realm there is no laying on of hands. The healer never touches the patient. All physical contact between patient and healer is obsolete. Human words are obsolete; surgery and medicine are obsolete; acupuncture and chiropractic are obsolete; every form of physical and mental treatment is obsolete. Soul realization expressing the perfect government of God overflows into the visible world as a divine blessing. The wind of the hurricane finds no one to hurt, the bullet of the assassin finds no one to kill, the poison of the

virus is revealed as a shadow of mortal thought and finds no one to infect. Divine substance realized in your soul dehypnotizes your mind and spiritual man walks freely on the earth.

The human mind has no capacity to demonstrate the power and the presence of God. Only your soul reaches into the kingdom of God, and in many the Bible has been telling you just that, that mind hypnosis is normal to all mortals because the natural man lives in slavery to the world mind. You must develop your spiritual center to remove the mask from all material appearances or you may be as hypnotized as your patient.

The fifth chapter of Matthew teaches us to train our focus from looking out with the mind to looking within, within your soul. Outside you see a cripple, a man with the withered arm, a girl in a coma. This is the external world viewed with mind vision. But now let's look at Matthew 5:25 in the Moffitt translation and we read this mystical advice from Christ:

*“Be quick and make terms with your opponent, so long as you and he are on the way to court, in case he hand you over to the judge and the judge to the jailer and you are thrown into prison; truly I tell you, you will never get out till you pay the last half-penny of your debt.”*

Quite different from the King James version but basically identical. So whether you read the Moffitt translation or the King James version, you're being taught by God that your mind is always a victim of world appearances. Your five senses surround your mind, they project sense images of a cripple, a withered arm, and a comatose girl. Where do these images come from? To the world they're real and we want to help them. We want to help the cripple to walk, we want to see that withered arm stretch out, we want to see that comatose girl wake up. But I have a question for you: How can you do what God has not done? Now look again at the words of Christ Jesus, and you will find your answer right there:

*“Be quick and make terms with your opponent.”*

For two thousand years man has ignored these inspired words direct from infinite divine intelligence. What they're saying is, instead of looking outside with your mind, go within, look inside your soul, do it instantly. That instant focus within instead of without is how you come to terms with your opponent. Who is your opponent? World mind. The cosmic liar who adulterates human perception with images not made by God. This is your adversary, your opponent. These cosmic mind projections of world thought appearing as the disabilities of our world are very convincing. They're especially persuasive when they work on your emotions. And this is the meaning *on the way to court*. If you're not careful a series of mental traps will trick you, your opponent will turn the case over to the judge, meaning your mind will pronounce judgment. It will positively identify the physical problem as a reality. It will be swayed by the appearances. And this verdict of your mind turns you over to the jailer and the door is locked behind you. You have let beliefs in the reality of a cripple, a withered arm, and a girl in a coma into your mind. Now there's no way to get them out. Your karmic debt is the conviction that material defects exist in God's creation. And you're going to pay for this

belief with your own material, mortal sense of life. This is your last half-penny – or in the King James version, your uttermost farthing that you will pay.

Now then, what does the next mention of consciousness tell us? You are close to it but you must be willing to work for it. It doesn't come like a sudden bolt of lightning. It's an inner movement and it begins with your yearning for God's pure truth, plus your understanding that your senses can never transmit truth, it can only make the God contact through the silence of your senses, for in that silence your mind will not react to the appearances of matter, of material images of cripples, withered arms, comatose girls, dying people. And as you maintain that inner vacuum of no sense reaction to outer stimuli, while the images that appear in your eye do not move you, you are indifferent to the nature of them and the contents of those images as they pass before you. You do not identify or respond to the images, you do not judge the images; the movement or quality of the images does not affect you. You accept all images as mere mental shadows without substance, without reality, without divine ordination, without power. And as you behold your patient in this vacuum of sense thought, unmoved by what you see, holding your five senses in a state of no resistance, no judgment, you are making it impossible for the world mind to turn you over to the judge. You are breaking the illusion of power which convinces mankind that mortal forms are real and can suffer from heart ailments which deny and defy the all-power of God. In that discipline of standing fast in no-thought, you are confirming your faith in God as the only creative principle, the only source, the maintaining, sustaining power of the universe which makes all appearances of the power of evil false and impossible.

This way of life repeated seventy times seven and seventy times seven again and again and again until it is your nature to remain unaffected by material images removes the beam of hypnosis from your eyes and releases the pure light of your soul; opens the door to your kingdom within and takes you to the throne of I Am which is the perfect will of God in action.

By your willingness to discipline yourself, to discipline your sense reaction to matter, you have upheld the divinity of your patient. You have accepted their spiritual identity as the perfect image and likeness of God, their Father. You have refused to believe that spirit can be crippled or disabled or comatose. You have not seen them as persons but perfect spiritual children of God. You have impersonalized your patient. You have nothingized your patient's material condition because spirit has no material condition. You are being true to the one great mystical secret which every spiritual healer knows and practices everyday. This is it:

**Only God is happening.**

Only God is happening. Never waste a single moment analyzing the problem you've been called upon to heal. That's your first major temptation. Instead freeze your sense reaction instantly, in one motion take no thought and in that moment go straight to God in your soul. Practice, practice, practice. You have refused to recognize the problem. You have not accepted the false appearance of person. You have not violated a single divine law. Now you have passed through the false powers of world mind, unwavering, not denying your

heavenly Father as the one life of all. The dream of mortality is almost gone. Is there a God and a patient? Of course not. There is one and that one is the only one – one undivided infinite spirit where you are and where the patient appears, one. One divine life where you are and where your patient appears. One omnipresent divine power where you are and your patient appears. Can spirit be less than perfect? What else is present beside spirit? Is a claim of error real or imagined? Now we rest above the senses, above the mind, above the beliefs of the mind, letting human thought float by, knowing God is, ising throughout infinity. There is no patient. My patient and I are the one spirit of God, unconditioned, unseparated, perfect and undefiled. You are seeing through the illusion. God’s perfection is our perfection. Everywhere “I am” is running a perfect universe. In this we continue resting in the word, confident. Then truth in consciousness will reveal itself visibly as the absence of error.

Now then, when the Bible reports that a cripple walked, a withered was straightened, a twelve-year-old girl awakened from a coma, Christ Jesus is teaching that there is no God and man. God manifests as individual being without man, without separation, but only when you are one with source will this wholeness, this harmony and peace become visible. When you realize that every patient is not a human being but God appearing as individual being then your patient will manifest the qualities of divine life and so will you. As you witness Christ behind the eyes of every individual, your own soul faculties will awaken to the joys and harmonies that invisibly surround you. Disease and death will cease to have an external reality when you feel the power of silent grace.

We are now moving into a new age of spiritual healing. Man will discover that God is here, that God’s creation is here as invisible spiritual man, universe and body; that the visible is unreal, including sin, sickness, habits and even persons. The knowledge that through physical senses we behold mirages will soon make more spiritually conscious souls discern reality. And that special extra something that adds new dimensions of life to your experience will reveal the magic of your environment like an unseen source with a new fragrant bringing enchantment from heaven and transforming the earth. We see this all around you these days. The transition is taking place. The awareness is taking root. Eyes are opened. You can make them open faster. You can release thoughts to their reality.

I leave one parting thought with you – a thought which I hope can hasten the transformation in our universe. The whole of next week take this idea with you; it can make a very big difference in your living and in your healing work. Become aware that only God can happen because only God is. You’ve had thousands of years of false thought to transcend, but much has already been transcended and much invisible help is being given. You can be sure that the consciousness of those who have walked before us is always with us, to help us become aware of the invisible presence of God as the only reality.

So I recommend that you take thirty seconds right now to remind yourself that God is happening and only God. Regardless of what your senses may have read in the morning newspaper or heard on the morning TV or what accumulation of beliefs have welled up within

you through the years, the truth is that God is happening now and only God. Hold that in your consciousness. Start with 30 seconds during the day. You'll find that the accumulation of this truth will do something for you that very little else can do. It will give you an unexpected confidence. It will release many of the fears that accumulate beneath the surface, fears that you don't even know you have, little fears.

"My daughter went to school today. She forgot something. Will she be well? Did she get a ride? Will the children there be kind to her? She was sick when she left, how is she?"

Things that weigh on your mind. And, oh, if you can take an inventory of those things they're so numerous. Your entire inner self is flooded with these aggressive thoughts. Only God is happening today. Have you accepted that? Do you know at this instant your realization of that can prevent the fears that you're worrying about? Do you know the power in that truth? When that truth becomes your living consciousness, "Behold, the world is new."

But now comes the application of that truth. You receive a call for help for a problem or an unwanted condition, now how will you start to meet that request? Here's a suggestion, perhaps a way you may not have thought of. To begin, instantly meet the claim by knowing that only God is happening. Good start, isn't it, whatever the claim? Oh, they told you about a lot of conditions that were wrong didn't they, but is that the real claim? No. The claim is that God is not happening. That's the claim. Whoever called you said, no matter what they said, they were saying, "God is not happening." But you know that only God is happening, so every condition, every problem must be a claim that God is asleep. Now take the claim and reverse it instantly, silently; don't tell the patient about it, silently in your consciousness. You heard the patient say, "My arm is broken." Right then, right then, you are saying silently within yourself – not to the patient – within yourself you are saying, "Only God is happening and there are no broken arms in God." Now get steady with yourself, rest there a moment. Forget the broken arm, forget the claim whatever it was. Rest inside secure in the truth that God is happening and only God, that God is the life of the patient, that God is the spiritual body of the patient. And every time the thought of a broken arm tries to enter your mind meet it with the quiet knowledge that infinite God life is all that is present, contains no broken arms, no cancer, no tumor, no this, no that, and then let God in you do the healing. Do you trust that? Can you do that? Let God in you after you know the truth, can you let God do the healing by maintaining no-thought about the problem? Christ did, some of us learn to do it and it works...

## TAPE 3

### HARD SAYINGS

*Herb:* From soul to soul, spirit to spirit. Greetings of love from the garden island of Kauai.

This tape series in preparation for the Chicago healing seminar next Easter is called “New Dimensions in Healing.” And today I believe you will hear about healing truths which rarely are taught to students anywhere in the world. For one thing spiritual healing never can be taught to a material consciousness, only spiritual students are prepared to understand fourth dimensional healing truth. But even spiritual students will find the hard sayings of esoteric truths are difficult to digest and to apply. And yet there must be a place on this earth where the healing grace of God is taught in its absolute form; without fear of shocking anyone or of alienating the timid or the traditional healers who cling to methods that cannot produce the greater works. Christ healing is revolutionary and to fulfill our responsibility as servants of the Most High, we are compelled to follow the Master; we are bringing these hard sayings into our daily healing work. And so today perhaps we should first heal the healers, to prepare them for every challenge that will be called upon in each of us to face problems that the world needs to solve.

As you know any attempt on your part to explain these hard truths to a material mind will be rather difficult and will surely meet with instant disapproval as you may soon discover for yourself. One key truth that mankind has managed to overlook for over five-thousand years is that **God is all**. And to that we must now add a second truth. And that is the important truth we wish to discuss.

#### **God is Immortal.**

Now where does that leave you? It leads to another amazing truth because God is immortal and God is all;

#### **There are no mortals on this earth.**

The application of this one truth can magnify the power of your healing work. A Bible student can get by without surrendering his mortality, but truly it is foolhardy to believe that a spiritual healer can live in a mortal body of matter and can be a channel for spiritual healing. Mortals who try to heal other mortals can be effective, through mental healing and a variety of other good methods. But they will also have many weaknesses and many failures. If you have not known before, realize now that the extraordinary healing miracles of Jesus were only possible because he had learned how to unlock the infinite power of the immortal Christ of his own eternal being. This immortal Christ in you can heal the universe and you can learn how to release this same Christ and all its power to the world when you learn to follow the hard

sayings of the Master. And that will take all your courage, all your vision, all your pioneering spirit, all your determination plus divine inspiration to release you from the fetters of false boundaries. *“Sell all thou hast.”*

Ahh. What did the Master mean by that statement? Was he advocating that we walk around in sackcloth? Did he want us to sell our homes and our investments? Turn it all over to charity? His very close friend Lazarus was a wealthy man and what did Lazarus sell before he walked out of a tomb in a new spiritual body? Lazarus did what every disciple of the Master learned to do. He sold his mortality. He surrendered his concept of mortal flesh. He accepted his immortal Self as the only self that he was.

*“Lay down your life so that you may pick it up again,”* said the Master.

And Lazarus did just that. He lay down his mortal concept of self. Picked up his immortal life just as each one of us on the spiritual path is learning to do. Now you must admit that is a hard saying and the pity of it is that because mortals have been afraid of that hard saying, they have gone through the illusion of dying on battlefields, suffering the tortures of the damned, with crippling diseases that have no divine Creator and exist only in the hypnotized mind. The belief that man is mortal is the hypnosis and from this erroneous belief evolves the equally erroneous belief in mortal problems, mortal diseases and disabling mortal sickness; the entire inventory of mortal illusions that culminate in mortal death.

The first shock is over. We have learned, **there are no mortals on this earth.** Immortal God created only immortal man. Mortals do not exist. And this truth is so breathtaking, so essential to your realization of identity, so vital to your healing work, and to the fulfillment of your eternal life, that Spirit commands you to pause right here to reach a higher understanding of who you are, and to look beyond the mortal tomb of flesh that you have naively accepted as your body.

Rest in the quiet for a moment find the incorporeality of your Self. The you without a physical form. Let your spirit rest there as you live in your incorporeal Being.

Your function, and this is not the words of a man, your function is to honor God supremely. We all accept that. It may surprise you however to learn that if you do not accept God as your source, as your Father, you are dishonoring God. The son of God is as immortal as his Father. The belief in your mortality is a denial of your divine Sonship; a denial of your divine identity, a denial of the Fatherhood of God. All mortals are denying Sonship and thereby dishonoring God. Mortals can never be one with an immortal God. Mortality is duality. Only immortality honors God. Only immortality is one with God. Only immortality is the truth that makes you free. And this is one of the greatest secrets taught on earth by Christ Jesus unknown to most of Christendom. He was not resurrected. The purpose of his demonstration is still unrealized; in one of the most remarkable teachings ever given to the human race, He demonstrated the illusion of mortality. He had one body and it was not the body that men saw. He had one life and it was not contained in that mortal body. And when the illusion of a mortal body was removed by crucifixion, the immortal body and the immortal

life remained untouched by death, because it was one with God, unseparated from God and that immortal body and that immortal life is the divine body and the divine life that you have now. Rest in that beautiful truth.

The day must come, and the day is now, when you declare your divine Sonship by surrendering your false sense of a mortal body, containing a mortal life, and accept immortal body, immortal life as your real Self, your only Self, your undying Self. Then, then you will honor God supremely. Hold this truth deep and hallowed in your consciousness. Every word has a unique and wonderful meaning for all of us.

*“Follow Me.”*

Oh what a hard saying because “Me” is the immortal Christ saying, “Follow Me,” out of your false mortality into your God given immortal life, your God given immortal body. And do it on this earth as I have done it. “Sell all thou hast.” Lay down your mortal that you may pick up your immortal life now. As your mortality is surrendered and released, your mortal problems will go with it. Sickness, disease, every appearance of imperfection, is part of the one mortal illusion.

*“Be ye perfect as your heavenly Father is perfect.”*

What does it mean? Be immortal like your Father now. Do you feel the inner rhythm of your immortality? Can you feel the reality of a body that you cannot see, your immortal body? That is God’s gift to you: your invisible body of eternal life. The body that was yours before birth, eternal, unconditioned, perfect forever. A body that is everywhere now. Always present, always divinely protected, never born. You have a body of infinite Spirit which lives now in the invisible kingdom of one infinite Self. This immortal body which exists before Abraham, meaning before the appearance of your mortality, before the world illusion, is your eternal life body. And you must know the miracle of your infinite Christ body because it is the one inseparable, immortal body of all who walk this earth.

This is the lesson you will find yourself returning to very frequently. This is the lesson your soul will call to your attention repeatedly. This is the lesson that will make you feel incomplete until you are the living lesson.

And now while you are expanding consciousness to the full depth of your being, let’s take a look at your patient the one who will come to you and say, “I have a problem.” You have just learned beyond doubt who you are. Now ask yourself this: who is your patient? This is a very crucial question. In spiritual healing you must identify your patient correctly. You must not judge by the appearance of form. Do you think your patient is a white male about thirty years old? If so you have already lost the case. Is she a black female about forty years old? Wrong again. You are still judging with a natural mind. That can never see reality, only its sense of reality.

Now let’s look again without judgement. Who is your patient? Is this the Son of God or a human being? Is this the Son of God or a Eurasian male? Who is sitting in the chair in

front of you saying, "Help me?" Who is your real patient? Now let's remove the mortality of your patient. No mortal is sitting before you, there are no mortals on earth. This is where you make or break your case. Immortal God is appearing to your mind as a visible mortal male or a mortal female. But the invisible Son of God sits before you, the one immortal Self is appearing to your senses in a material form because you do not have spiritual vision.

Now look once more - not with your eyes, but with your soul. Look at the spiritual reality concealed by your senses. And you will discover who your patient is. Are you ready? All right. Who is your patient? The answer is this; *you are your patient*. Every patient coming to you, is you. I am your patient. The I of you stands before you, the infinite I. There is no problem in I which is God expressing. God is one without opposite. I is God. I and the Father are the inseparable one. I God, the Self of you, am your patient. I am perfect, for I am the Father. I can never be sick, for I am all the perfect qualities of God. I am the immortal body of the universe and your senses are seeing Me through a glass darkly, as an individual mortal, with ailments, but I am the invisible body of all men, the body of eternal life. The same body that remained alive when the illusory material body of Jesus was crucified. I am the Christ body, the Holy one of Israel. And when you have faith that I am the Christ of your patient and of you, one forever, then you will have the secret of spiritual healing; then you will bare witness to the truth of God in every man, and the miracle of Grace will reward thee openly.

Every claim of a problem is a denial of divine identity because the identity of all is I, the perfect self of God. The real identity of your patient needs no healing. But rarely will your patient be aware of his real identity. He will be asleep in a material sense of mind and body. And so your job as the healer, is to lift him to his true Self and to prove that God is the self of all. This is what makes spiritual healing a true delight. You are not healing. You are not healing bones, muscle or tissue. You are restoring your patient to his divine Self. Taking him out of the belief in a mental created image called body. Out of the belief in material flesh. And your secret method, is not the words you speak, but it is your recognition within of his immortal life and his immortal body, which are unseparated from your immortal life and your immortal body.

Take it all the way to that. For God is the I of you and of him, and that I in the midst of you and your patient is the invisible divine substance of him and of you. Your realization of the one indwelling Self of you is the trigger. As you abide in that realization your consciousness will expand and rise and not by might, not by power, Spirit itself, will pull the trigger, with truth, to explode the myth of mortal man, mortal matter, and to dissolve the mirage, and to reveal the underlying perfection that never left your patient. All error, all sickness in our world, is sense hypnotism. We stare at God's spiritual kingdom; infinite, eternal, immortal, perfect Self, and the world mind interprets this infinite spiritual perfection, as a finite imperfect world, with imperfect selves, spinning in make believe time.

Our sense mind completes the mirage, by looking out at the One undivided, infinite, immortal Self and seeing millions of mortals separated and finite; individual mortal bodies,

In this lesson, so far, you have learned new dimensions of healing that you will not find in books. To be sure that these vital principles are included in your healing procedure, it would be wise to review them very carefully right now. Until the hard sayings have done their work in your consciousness. You probably have never really tried to live in your body of life instead of your body of death.

Mortals accept the cycle of life and death so they spend lifespans after lifespans living in mortal bodies that must die. At one time every person on earth lived in the sea. We were water creatures with bodies adapted to living underwater. Before that we were minerals without animation, without bodily organs, but if you reversed the scale of evolution and returned to your source, you would find that in the beginning, you were immortal. What we are learning now is the revolutionary truth that what you were in the beginning is what you are now. The *I* of you has never changed. You are still immortal and you always will be. There isn't a thing you can do to change from being immortal forever. The complete cycle of material evolution from a one celled amoeba, to millions of years of genealogical changes, terminating in twentieth century man, is one continuous time illusion, which has mesmerized the mind of all physical creatures; from the lowest protozoa to the highest primates.

*"Before Abraham was I Am."*

In one breathtaking sweep Christ revealed that before physical man was, Spirit is. Before mortality was, immortality is. In other words the Christ, spirit of God, is the same yesterday, today and tomorrow. God does not evolve. Spirit is perfect and changeless forever. The entire purpose of the Christ mission on earth is to take man off the tree of physical evolution, in which every man dies, and reincarnates to die again, and to lift him out of a concept of a human body that dies to the spiritual body of life, which is the secret of life eternal. You have a body of life.

Christ Jesus found his body of life, his eternal body and his eternal life. Not by physical evolution, but by awakening from the dream of physical evolution. Do you see that? By moving from the body of illusion, which dies to the body of reality which lives. The *I* of you, the Christ of you, is the immortal Self, which never, never, never evolves; which is never sick; which never has problems; which never dies; and which therefore, honors God supremely. You will never become that immortal Self. You either accept it as your reality now, or you continue living in a false mortal sense, a false body, until your mortal lifespan runs out.

*"Choose ye this day God or mammon."*

Mammon is that mortal body of death. God is the immortal body of life eternal.

In the silence let Spirit provide the inspiration and confidence we need for the dawn of a new awakening in consciousness, as our souls open to the inner Christ. Above your mind, above this mental world, in which men live, are three levels of Consciousness. They are called the three heavens. These three heavens are the sum and the substance of who you are. In

Chapter 12 of 2nd Corinthians verse 2, Paul says that he saw a man caught up in Christ in the third heaven, that third heaven is your eternal Christ; your eternal Christ life which is your real and only life right now. The second heaven is your immortal Spirit. The first heaven is your immortal soul. These three heavens above this mental world constitute the fullness of your immortality and when you deny your immortality, you deny the existence of your soul, your spirit, and your eternal Christ life. And this, unfortunately, is precisely what keeps mankind from enjoying the fruits of the Kingdom. Like shutting out the sun and then saying, “We have no sunshine.” Without the conscious activity of your immortal soul, you’re immortal Spirit, and your immortal eternal life, you are the natural man who receiveth not the things of God. So another hard saying is;

*“Keep your conversation in heaven.”*

Mankind has not heeded that hard saying. Our mental world keeps us earth bound, buried in the tomb of mortal flesh. Walking on a treadmill; which makes us labor for material things alone, material things that perish.

Your high levels of healing work will begin when you realize your own immortality. For only then can you realize the immortality of your patient. And this is the essential key to opening the doors of your patient's soul.

*“Ye shall know the truth and the truth will make you free.”*

You are now standing on the threshold between material consciousness, mortal consciousness and immortal consciousness, between humanhood and Sonship, and you must ask yourself, is the Son of God mortal? You know by now that by believing we are mortal we are rejecting Sonship. John helped clarify who we are with this statement;

*“Love not the world neither the things that are in the world. If any man love the world the love of the Father is not in him.”*

Mortals love the world and they seem to die, because this world is our mortal imitation of the Kingdom. Immortals love only the Kingdom. They will not accept an adulterated version of the Kingdom. Know this:

*“All that is in the world, [all], the lust of the flesh, the lust of the eye, the pride of life is not of the Father but is of the world.”*

*“And the world passeth away and the lust thereof, but he that doth the will of God abideth forever.”*

Let’s catch a point there. When you cross over from mortality to immortality, without dying, you are doing the divine Will. You are accepting immortal God as your Father., here and now. You are declaring your birth right to live now in God’s perfect Kingdom. You are obeying God’s Will. And that crossing over, that transformation in consciousness, is your spiritual rebirth. It should be clear from many signs we have received, that your immortality is really the only direction you can go to seek enlightenment. The mission of Christ Jesus pure

and simple is to lead mankind away from death to life; from mortality to immortality. And if you do not make that move, now, while you're alive and have the right to choose, it'll be too late when the right to choose is taken away.

*“Turn ye and live.”*

How perfectly clear. Every word of Spirit rings with new meaning. Turn from death to life, from mortality to immortality, from matter that dies, to spirit that lives. Lazarus, a wealthy man, made the transition in consciousness, and walked out of a material tomb in his immortal body. Peter made the same transition, walked out of prison. And there be some among you now, who will never see death, because the immortal Son of God, realized, is your life eternal. Actually, your life work is just beginning. Everything you have learned is to prepare you for rebirth, from the world mind, to your divine soul; from the body of death, to the body of life.

*“What fools these mortals be.”*

When Shakespeare said that through one of his characters, he was chastising us for clinging to dying images. We have prayed to God to help us whenever we suffer. We've failed to realize however, that divine love can never leave us. And in our human conflicts we've overlooked one of the great truths that makes all sense of suffering unnecessary: we are not in a mortal body that suffers. Every physical problem is based on our unconscious rejection of the immortal body in which we truly live and in which our divine Self is living now.

Remember Paul, how he walked the earth unafraid teaching the revolutionary Christ message? Because he had discovered his immortal body was under divine protection. The disciples transcended to their immortal bodies and followed Christ Jesus to the three heavens. And today some of us are ready to embark on that same exciting journey in consciousness. Let us break the hypnotism by awakening from the dream. The dream that God made suffering bodies, that God made bodies that grow old and deteriorate.

Let us love the Father who loves us. I am not separated from God. There is no place where God's immortal body separates and part of it becomes mortal. The life of God flows in God's infinite body. I am that infinite divine body, because no other body exists. I am that infinite divine life, because no other life exists. I am that perfect life, because the Father commands me to, “be ye perfect.” And my perfect life is immortal, now, alive forever. I will never die, I am immortal life. The same one infinite immortal life that is the life of Christ, Buddha, Krishna, and all Sons of God; there is no other life.

I have never seen your body and you have never seen mine. We live in one invisible body which never knows pain, suffering or age. We are ageless, eternal life substance permanently alive. We have no place to lay our heads because we are incorporeal, we are Spirit. We do not live inside the illusion of mortal flesh. We have no finite form. We are the invisible temple of God. We are the only body on earth, alive everywhere, simultaneously, and without interruption. We are the one invisible body of the so-called human race that walked in

ancient civilizations, the human race that walks today, and the human race that will appear in every tomorrow. We are the eternal body of God. Always perfect, always manifesting the perfect qualities of our perfect Father. All imperfection is impossible. Perfection is always present. Imperfection is always in the dream. God is the immortal substance of the universe and anything that is not immortal is unreal.

During the next month while you secretly and silently practice reminding yourself that you are immortal, something wonderful is going to happen; an opportunity will arise for you to heal another individual. That person may come to you and say, "You are a student of spiritual healing and I am in great pain, will you help me?" When that individual comes to you very much in distress, how are you going to meet this request? What will you try to accomplish? First;

*"Fear not."*

Fear is a denial of the presence of God. The moment you're in a state of fear you're denying God is there. So if you fear, steady yourself with the knowledge that only God is there; not even you or your patient, and that God can never go away. When you catch that you find a great release. No matter what you see or hear, only God is happening, and only God is present. It's truly a great release. Now this patient is your opportunity to prove that God is all, that the only life in your room is the life of God.

Now comes a big addition a big change in your healing technique. You are immortal. All month you'll be practicing that you are immortal. But now stop! Look at your patient. What do you see? Do you see a physical man, physical woman in distress? Did God create men or women in distress? Do you see another mortal? Did God create mortals? Are you getting the point? Because only God is present. There are no mortals. Just as you are immortal so is your patient. Makes no difference whether your patient is ninety years old or five years old. Stop fearing, stop worrying, stop doubting, know the one truth: The person sitting in your room is immortal. Every person who ever comes to you, is as immortal as you are. When you know this, you will feel a great weight fall from your shoulders. When you accept the person's immortality, it'll be because, you have accepted your immortality.

More healings have failed because mental teachings try to heal mortal patients with mortal practitioners. And the healing of Christ Jesus succeeds, because being immortal he realized the immortality of everyone who approached him for help. No successful spiritual healer has ever had a mortal patient and has never treated a mortal condition, because his so-called patients are all immortal, unconditioned.

You have received this vital information because you are now ready for it. Now apply it. Daily build your consciousness by realizing that only immortal life is here on earth. In your contemplations be alert, for inner wisdom about your own immortal life and the immortal life of the entire human race. We have all been entertaining angels unawares, but it is now your time to crack the shell of mortality; to discover the immortal Kingdom of Spirit in which you really live.

## World Work

During the past twenty five years many of us have joined in world work with a great deal of success I think and often a few wonderful surprises. World work is something you do from your living room or wherever you meditate. Groups are invited to join us as we start this work now. Groups and individuals. We would like to begin these world work meetings starting at once. Every Saturday at 6pm California time., let us set aside one hour in which we join around the country and abroad to bring spiritual light to a world which needs all the light we can release.

Today the conflict seems to be bubbling over in China, so perhaps that's where we should start. Let us make, "peace in China," the subject of our meditation. But let's change that to something else to make it possible to attain that peace. Let our theme be, "Immortality in China." And then we can use the new spiritual wisdom that we have received today.

Suppose we run through it briefly together, we may run out of time, but if not, we'll try to cover it as well as we can. Here's our first step;

Look past the headline events in China. Look past the bloodshed, past the tyranny, past the horror of a nation at war against itself. Instead let us look at the reality.

God is happening. Where the world sees genocide, where a brother dies from a brother's hand. We must ask does God create a bloody China? Of course not. We are seeing a world illusion on the screen of the world mind. We are looking at mortals in turmoil, where mortals do not exist. "*Pick up your bed,*" rise in consciousness, there is no mortal. "*The earth is the Lord's and the fullness thereof.*" Immortal God everywhere, is the only life, the only body, One immortal Self, at peace forever, standing now behind the image of mortals at war.

In your fidelity to God accept the immortality of every resident of China. Whether he be a student, soldier, or member of the government. Let the names and the forms fade away. The immortality of China, the immortal Son of God, is now today, this moment, the identity of all China, past, present and future. Within you, feel My peace and watch the lie fade away.

*"My peace I give unto you, not as the world giveth, give I unto you."*

And now one more step; Who is meditating? Are you in your soul? Are you in the peace of your soul, or in your mind? Are you in your Spirit, or in a body of flesh? Are you Immortal, or human? Do you see? When you have accepted that you are Immortal, that you are the immortal I Christ, you will recognize the immortality of the Chinese people.

So now, let us drop the concept of being in a mortal form, governed by mortal law, as the I of you recognizes the I of China, recognizes the One divine life of all nations; recognizes the one immortal Self of all nations, and now you are a channel for the perfect immortal law of God. That realized oneness, translates divine power, into divine peace, harmony and love.

## TAPE 4

### ARE YOU STILL A BODY PRISONER?

*Herb:* From soul to soul, spirit to spirit greetings of the heart in oneness from the island of Kauai. It is such a wonderful feeling to be with you again to share the words of the Father.

You may remember that before the crucifixion of Jesus, Pilate offered the angry multitudes a choice. Among the prisoners was a murderer named Barabas. According to tradition, Pilate could release one prisoner and only one so he cried out, "Which one should I release, this one who committed murder at the insurrection or the King of the Jews?"

Perhaps we should point out the symbolism of this choice. The real choice was not between one man or another man. Mankind was being told that every man has a choice between death and life. You can continue to live in a body that dies, or you can elect to live in a body that is eternal. That choice has never really been offered to mankind clearly but it is there always. Pilate himself was a symbol of "world mind" and its reliance on the authority of physical power.

Now he gave the crowd a second choice they wished to release Barabas, he was uncertain, so he cried again, "Then what should I do to him who ye call the King of the Jews?" And the angry cry came back, "Crucify him!" And so again the symbolism is that eternal life was being rejected and death - human life in a body that dies - was to be released. And I'd like you to remember that broad symbolism.

At that time the eternal Christ body of Jesus which had performed life giving miracles on earth was unknown to the human race. Man spat upon that life. But unaware that they were defiling their own eternal body. They scourged him, they mocked him and in their mockery they did a strange thing. Blinded to life, hypnotized by materialism they were compelled by spirit to clothe the body of Jesus in purple to mock him as a false King of a false kingdom. That was their purpose but spirit had another purpose. Spirit was talking to mankind. It was saying that all men live in the illusion of flesh except this one whom the mocking crowd had clothed in purple. The color purple was the hand of spirit identifying for us the eternal body of the one called Jesus the Christ. Barabas of course is a symbol of human materialism dead to his own immortality, to his own immortal body, to his own eternal life.

Today we are still prisoners in our physical sense of body. Two thousand years in human bodies. When the Holy Ghost breaks that illusion for you, you will experience a strange and wondrous peace, peace that passeth understanding. Ignorance, superstitions of your human mind manifesting as material laws, material concepts will be revealed as mirage. Human will with its many detours will dissolve and God's will express as your living thought.

The kingdom of God's creation will no longer be a stranger to you. Your new body will look exactly the same to everyone who sees you. Your children, your friends will see the same body where they see you. But you, you will know that a transformation has taken place. To you good and evil will no longer clearly be defined. Your new consciousness will not see good health and bad health. Impressions will be different. Your goals which once loomed so large and enticing, will seem to be less in the future but more in the present and already standard equipment for your being. You will feel a constant sense of rightness of confidence that something wonderful is living your life in higher dimensions. Something more wonderful than you would have even hoped for but had never realized. You will discover that error, frustration and doubt have all vanished from your life. Something has been added; automation on a large scale and it moves you into projects that you have never quite experienced, in a way that is earth shaking and always with a sense of harmony that defies description. Out of the sense of physical form you live under grace, moving in the rhythm of God, fulfilling the divine plan in you. Perhaps you have already discovered that as your healing consciousness is strengthened and the release of healing power increases in you that there is also a noticeable release from your own sense of physical body. This change will be followed by a larger release from material limitations as you become aware of certain weaknesses you may have accepted and learn to eliminate them. Before we isolate these weaknesses and correct them let's give the universe back to the Father, to the source and let us stand quietly in the secret place of the Most High.

[silence]

This may shock you but have you been trying as a healer to heal human bodies? That is a no no and for many wonderful reasons. Even God cannot heal a human body. You see God never made a human body and God is the only creator. God made all that was made and God did not make five million human bodies with AIDS. God did not make twenty million human bodies with cancer or fifty million human bodies with infections, dysfunctions, defects, defective organs and so forth. Well then who made, who made these billions of imperfect bodies. Do you have a God capable of this insanity. Now here the spiritual healer must turn from the broad way that leads to destruction and follow the narrow path that leads to life, life eternal. This is the place where you leave the concepts of mother, father, child. This is where you become absolute and really you have no choice. You must live in spiritual wholeness with spiritual integrity. You must know that the human body which denies the allness of God and the spirit of God as the only living substance in creation; that human body has no existence. And the best way to nail down your knowledge of the non-existence of human bodies is to begin with one essential truth. Please listen carefully and make this truth the nucleus of your healing consciousness.

*I have no physical body. My patient has no physical body.*

I have no physical body to heal. I cannot heal a physical body because God never made one. I am spirit. I am a spiritual healer. This patient has called me to heal his concept of a physical body and if I try to do that I will fail. My job is to take this patient out of his body prison, out of his body dream above his sense of physical body and my treatment begins when I avoid the trap of believing in two bodies, his physical body and my physical body and recognize there is one body present, only one. And that is the one infinite spiritual body of God. And that is the Christ body of my patient and that is the Christ body of me and that is the Christ body of mankind. This is spiritual wholeness and this prepares you to be a healer.

Now I must raise my consciousness to contact God. Now I must recognize the spiritual truth of my body and my patient's body in order to release the flow of power into consciousness, to reveal a spiritual harmony that has never changed. The harmony that always is. To reveal the divine identity of the one who requested the help. Above all physical appearances where there is no person to be healed, no body to be healed, no corporeality, no discord only the spirit of God, the image and likeness of God, the temple of the Living God. You see the temptation to improve humanhood is the trap and when you start off on that foot you're moving away from Mecca. When you accept a graven physical image you are the blind leading the blind. You must live above the belief in human substance drawing eternal substance from Christ within seeing perfection through the single eye of Christ Consciousness.

Now let's review the first phase of treatment to reach the inner emanation of God the pure spiritual substance of God. I am that substance. I must be awake and aware that I am not finite matter living in physical space. I am not living for the meat that perisheth. God is my Father. God is the Father of my patient. They are not human. They are not human bodies. We are one imperishable divine substance. We are God substance. We're not prodigal. Above the mirage of form. Above the sense consciousness which sees form through a glass darkly. Above the limitations of human vision we know the truth: God is always right here and God is all that is here. Ah yes you have been tested. Finite matter is the test. Accept finite matter and you deny the allness of God who is infinite. Encompassing all that is real and spiritual. Accept finite form as reality and you are open to the never ending sense flow of imperfect human body images that have fooled man into thinking that men live in human bodies.

The second false belief is that there is life in human bodies. The only life there is, is the life of God. And until *you* are the realized life of God your separation from God remains the separation of your patient. The power of God's life flows through your spiritual body which is the one body and the one life of all men. And when you are willing to accept no less than that one spiritual life and that one spiritual body as your life and your body, the power of that life and that body will raise up your patient.

Your treatment is not yet over. You must know the truth, the whole truth to be free and there is no truth about man. The only truth there is, is the truth about God, for God is all. Do you have a sick patient? If you have you have been tricked into believing that God is not all.

Just as your patient has been tricked into believing that he and God are two. To this false belief there is exactly like ten billion others. Mortals who live in a false sense of self a false sense of body and a false sense of life. Your job is not to fall into that trap.

Please remember no matter what claim is presented to you it must be false. Every claim is false. And that false claim exists only because the patient has accepted a life and a body that is not the life and the body of God. This is the source of every infection, every discord, every appearance of a condition, but, because God is all, who are these sick patients? Where are their assorted ailments? Ah, you see the mirage? They are the by-product of a mortal dream projected on a cosmic screen by mortal thought and feared by the same mortal brain that projected them. Now you are called upon to dissolve these mirages. To see them as appearances without substance. Without a law to sustain them. Without power. And as these appearances meet your awakened awareness that you and your patient are the life and body of God, infinite, these appearances will scatter and dissolve and flow back to the nothingness from which they came. Like mighty Goliath crumbling before the sling-shot of little David. Your spiritual fidelity to God's truth in you and as you, in your patient and as your patient will take men out of illusion, out of the sense of imperfection into the perfection of reality.

As the power of your consciousness of truth meets and defeats the lie the peace that comes upon you begins your "real treatment." Up to now you have been preparing the way. Now God within gives the real healing treatment. The sunshine of truth eliminates the shadows. The grace of divine self realized is the miracle worker within. Divine life has no opposite and this knowledge must manifest in a pure consciousness. On earth as in heaven. For thine is the kingdom and the power and the glory forever. The realization of oneness with God for you and your patient gives you the assurance that God is on the scene. And this inner assurance is the living Holy Ghost within you which now becomes the living Holy Ghost within your patient. And this divine Comforter opens the inner eye to inner truth to the kingdom of love, the kingdom of peace, the kingdom of indestructibility. Now we stand in the highest of the high, one, infinite one perfect everywhere and this so-called patient has no existence. There never was a patient. You were healing God unawares. And because God is the only there are not two now. You've come to that Holy place where the divine self is realized and you can say to the Father, "I and the Father are now one - realized." And in that precious moment, that eternal moment we stand now.

*"Peace give I unto you, not as the world giveth, give I unto you."*

*"My peace passeth all understanding."*

The glory of the eternal Father will be made manifest in the life of your patient. And in all those who come to you as you are able to reach this pinnacle of realization. That everyone who comes to you is God invisible. That everyone who comes to you is already perfect. That everyone who comes to you is the invisible self of you. And every time you are trapped into believing there are two, that there is a healer and a patient, you will find great difficulty in

rising above that false notion. You will be denying the allness of God yourself and your patient will be trapped in your hopeless situation.

We are so fortunate to have these principles of Joel. To have them in books where we can find them again and again and to hear of them and to associate with students who seek only the truth of God. We are blessed. We are blessed because today the color purple is becoming meaningful. Yes they buried Him and before they buried Him they inadvertently clothed Him in purple not knowing that that was a symbol of the eternal body which could never be buried. That symbol is the symbol of your spiritual body which can never be buried. Clothe yourself in purple, weave your purple. Day after day know the purple of eternal life as your body, your only body and refuse, refuse to live in a physical body that must die because you're not living in one now. You're living in a concept. And the truth will set you free. Know that truth and you will be free. I am not in a physical body because God made none. My body is not sitting in a chair. My body does not walk visibly in a room. My body is everywhere of substance that will never die. Dwell with this in your meditations. Bring it to your healing consciousness. Expose your so-called patient to this inner truth of your being and make it his inner truth and the world will remember the healings that come from your knowledge of reality. Peace I give unto you but not a peace that passes, a peace so deep that within you is a well of confidence an inner knowledge of reality, an inner *I* which reveals to you the eternal presence of the kingdom which is your being. You are not separate from the kingdom, you do not walk in the kingdom, you *are* the kingdom. Rest in the kingdom of your Self, the kingdom of your Soul, the kingdom of God. Rest in your Christ body.

[silence]

This is the fourth tape and when we have completed this fourth tape it is the plan of Spirit that we know that we need not be prisoners of the body. That we can step out of the false prison to which the human mind has surrendered, that the doors of our prison can open as they did for Paul, that we are moving into a new era in consciousness, an enlightened era. When here and there across the creation men stand up and declare their divinity, proudly, unafraid and live their divinity and express their divinity and lift their fellowman to his divinity. Here one, there one and across the universe an army, a divine army, a circle of Christ. Be among that group, stand up show your divinity. Let it illuminate your household and let that light shine.

### **The Meaning Of The Color Purple In The Bible**

The color purple is a secret symbol used throughout the Bible. Unfortunately the metaphysical dictionary does not mention this symbol and various expository dictionaries

dedicated to an explanation of the esoteric meaning of Bible symbols somehow also bypassed this word which is probably the major reason that Bible students throughout the world have been denied the important significance of this very very special symbol.

**Purple:** means the full measure of Christ Consciousness and more specifically, when the Bible says that an individual is a weaver of purple, or associates an individual with the color purple in any way, it is revealing that this individual has awakened to the truth that he or she is not living in a body of mortal flesh, but is one with the spiritual immortal body of God.

This secret was handled very discreetly by Old Testament Prophets. It's tucked away in the book of Exodus, Numbers, Judges, 2 Chronicles, Ester, Proverbs, Song of Solomon and Ezekiel. The New Testament writers mention a little more openly but not much, Mark, Luke and John all reported purple on Jesus just before the crucifixion and then in Acts 16 when Paul and Silas prayed in prison and the foundations of the prison shake and the doors of the prison open. The writer of Acts gives us a marvelous clue to the deep hidden meaning of that event by placing Lydia a "seller of purple," just before the event and immediately after the event to inform us that Paul was living in his infinite Christ body, the body of God.

And then in the lost books of the Bible there's a spiritual account of the birth of Christ to the virgin Mary. It's written by James the Lesser who is known as the cousin and brother of Jesus. Who was the first Bishop of the Christians in Jerusalem. And this is an authentic account titled "The Pro-Evangeline." In chapter 9 of the Pro-Evangeline it tells us that the High Priests were making a new veil for the temple and so from seven virgins they selected Mary to spin the true purple. Which meant to weave her Christ Consciousness. And while Mary was spinning the true purple she heard the inner voice and it declared that she was full of grace and blessed among women. Mary was realizing her true body was not the flesh. She was being transformed in consciousness to realize her spiritual body, her permanent divine body which was the vehicle for the eternal life of God. And that is what made this an immaculate conception. So the WORD in Mary, became flesh and dwelt among us. For every soul there must be a realization of spiritual identity which homogenizes the female soul and the male spirit and births out of this mystical marriage the androgynous Christ which is the individualization of God or Self realized. From this immaculate self conception your God-self which you always have been replaces the material time illusion which is called mortal and you are now revealed as the temple, the body of the living God.

oooooooooooooooooooo End of Side One ooooooooooooooooooooo

Enlightenment is the process of discovering your God-self. Faith is the capacity to accept the qualities of your God-self even before realization, as it becomes clear to you that human thought and human vision are cut off from God, from reality. This capacity of inspired faith is lit by the divine flame of God's grace which leads you to itself. The journey from little

me to divine *I* is your identity test which trains your soul. As your soul moves through the fourth world of the mind we react to the illusion of separate material selves or we stand fast with our mind stayed on the truth of God's words and deeds expressed through Christ.

The higher journey begins when we intellectually accept the one body of God as the only body in the universe and that is where you are right this moment. And when we refuse to waver from that certainty, when we awaken, something wonderful happens, we are released from the body concept.

I came across a poem recently by an infinite way student which expressed the inner journey in a way that I thought you may find interesting and helpful. It's called:

### AWAKENING

We enter this earth-realm like a Christ butterfly,  
emerging from a mortal cocoon, magical, wondrous appearing.  
A breath from the one invisible life that envelops this world of love.  
Wide-eyed and innocent we love every form and pattern this realm  
presents to challenge a young life.  
Moving with the gentleness of a butterfly,  
we dance and play and glow with each breath.  
Heaven is our world, a safe cocoon.  
Out of this resplendent cocoon we become youth.  
We love and accept with every breath,  
conditioned concepts of an earthly realm.  
Forgetting for a while how a butterfly, beauty;  
looking to externals for life.  
Our bodies mature and this life we call adulthood.  
Secure in its cocoon of earthly pleasures,  
begins its butterfly flight, in search of forgotten love,  
questing for meaning, examining this realm of being  
and pondering the source of breath.  
We reach our autumn years,  
and with each breath we take, awaken to an inner life,  
glimpsing visions of an invisible realm.

We untangle the cocoon of mortality, embrace God's love.  
Soaring in spirit and beauty as a butterfly,  
in a swift movement of time,  
the butterfly in us hovers on the truth that breath is of the soul,  
that God is the love that transforms us to eternal life.  
We discard the fleshly body, the cocoon;  
and awaken to the glory of a higher realm.  
In every heart and life there is a cocoon of love  
that gently unfolds as the breath of a butterfly  
to dwell in a heavenly realm.

I thank that student for that lovely poem.

On page 112 of the "Art of Spiritual Healing" Joel says,

"My body has neither qualities or quantities of good or of evil. It has neither sickness nor health"

Do you know any human being whose body has neither sickness nor health. Can you accurately make the same statement. Try it. Say the words slowly. See if they feel comfortable. My body has neither qualities nor quantities of good or of evil, it has neither sickness nor health. Did you feel comfortable? Let me remind you that when you know this is true about your body and also about your patient's body and about everybody's body in the world, you will know that this is what Christ taught. And that Joel could make this statement because he was talking about the Christ body which he realized was the only body that God had given him and you and everyone.

Your changeover from a human sense of body with ailments to a divine body which lives forever is a fulfillment of God's plan that ye be perfect as God.

As you know Joel had several heart attacks but his knowledge that they were not occurring in his divine and only body, weathered the illusion, until in divine order spirit moved his consciousness into the fullness of his next experience.

"My body is neither large nor small," he said

And you can see him he was about 5 foot 2 or 4 maybe 6 but I think maybe 4, well maybe 2 but he was a short man, my body is neither large nor small. Now mind you he walked this earth as other men but he had graduated from the notion that he lived in a physical body. With simple conviction he said;

"My body has neither life nor death."

Now if you saw Joel walk into a classroom you might have assumed that his body was alive. He didn't agree, no, "My body does not have life," he firmly declared. Now he was speaking about the body which already appeared to him in consciousness. Not about the body concept which appeared to his students, the concept body which dies and does not contain life at all. You see real life can never live in a false mental image. And that body which can never be alive can never die. That body which is spirit can never die either. There is one body called human body and it is never alive so it cannot die. There is a body called spirit which is always alive so it can never die. Death is an impossibility. So Joel said, "My body has neither life nor death." Now can we stop a moment can we adjust our consciousness to this great truth.

Science have affirmed that atoms and micro atoms are the substance of your form. Science is wrong, God is the substance of your form. And God is spirit. Atoms are man's concept *about* spirit. You do not have a spiritual body and an atomic body. Your spiritual body is the body of God and will never die. Your atomic body is a sense of body which does not contain God substance or God life. It lives in a false state of being. And living in an atomic sense of body you must experience separation from God which always results in a house divided between pain and pleasure, divided between good and evil, between good health and bad health, a sense of life and a sense of death. Mortality never experiences immortality, mortality must appear to perish because the illusion of life cannot sustain itself. The quicksand of atoms is the burial ground for all who identify as mortals. Fortunately, Infinite Way wisdom teaches that we are even deceived by youth and old age. So Joel says;

"My body is God substance expressed as form, embodying all qualities and quantities which constitute God, the I am, the soul. My body has neither youth or old age."

Every word there is a spiritual lesson. If you are entertaining thoughts about youth or old age you are not living in your real body. God is not young or old and the spirit of God is the substance of your body. So pause a moment, go within, rest in your soul with peace with confidence, be grateful that your heavenly Father, through the Christ of Joel, is leading you to green pastures teaching you how to weave the pure purple; opening the book of life eternal, and inviting you to enter the realm of immortality for each ray of divine light we thank the Father.

As your senses release their grip as the mists of matter reveal their shallow layers of illusion our confidence in the power of truth is renewed and we are ready for new keys, new dimensions leading to the kingdom of reality. Says Joel;

"In my body, my real and only body is neither material darkness, nor mental ignorance, for God is a light unto his Holy Temple which my body is."

With this calm assurance you must answer every call for help. Your patient is always God the invisible substance of every form. In time the illusion of physical form does not fool you. The I of you and the I of your patient stand in oneness while the hypnosis of person and condition go through their little act. Big illusions seem to have more power than little illusions, and as each claim touches your purified consciousness it meets the Christ in you

who judges no man. Now listen again please as Joel states truth that you can depend on forever.

“God unfolds, discloses, reveals himself as body temple, place of holiness and peace. God's grace maintains and sustains his body which my body is.”

Did you hear that? If you could realize that one truth, and feel it so deeply that you trust it without question, you would experience a major step forward step in consciousness. Nothing in this world would rustle or disturb you. You would know that God's body, the body of everyone in this universe is indestructible and uninfluenced by the changing illusions in the sense world of man. To you God will always be saying;

*“My peace I give unto you, not as the world giveth give I unto you.”*

I would like to thank everyone of you for joining in our world work this past month. As a group of Infinite Way students around the world we are now meditating in our homes every Saturday at 6pm California time. We'd love you to join us and we think you'll understand as soon as you do.

Starting with this tape our subject will be the body of the universe, the very last sentence in chapter 9 of Joel's' book, “The Art of Spiritual Healing.” That will be our subject and I'm going to read it to you, you've just heard it.

“God's grace maintains and sustains his body, which my body is.”

Think for a moment of every nation on this planet and think of its inhabitants. The invisible substance of that nation and its inhabitants and of every nation and its inhabitants is the body of God which your body is.

Dwell in your real body now. Are you only in your room? Is the body of God only in your room? Stretch out to your infinite divine body of pure divine spirit. And when you hear or read about a plane crash in Brazil, an earthquake in California, an epidemic in Guatemala; meet that claim easily, confidently with the simple knowledge that God's grace maintains and sustains his body which my body is. You can meet every claim with this incredibly wonderful truth. You will discover that your consciousness of the body of God as your body, is healing unto the nations. Let's do it now. Rivet it into your consciousness.

The phrase we will use for our meditation throughout the world every Saturday at 6pm California time is the last words in chapter 9 of Joel's book “The Art of Spiritual Healing” and those words are;

“Gods grace maintains and sustains his body, which my body is.”

We are moving through the invisible now in consciousness feeling the joy of our everywhere-ness of our eternal body which will always be our eternal body, which will never be sick, never destroyed, never defective, always perfect, always in harmony, always the one

body of God is my body. And I have no other body. Dwell in this glorious truth. Let yourself be transported. Find your glorious kingdom of reality.

We're going to stay here in the purity of our soul listening, waiting and listening for that voice which individualizes in each of us, to guide us, to love us, to teach us, to open new doors, new highways, new realms. For this is the age of enlightenment. The age when men discover their souls. And with their souls discover their spirit. And with their souls unite with their spirit to birth the color purple, the Christ Consciousness which gives us single vision and makes us Self-creative. In your true body everything you need you create and as feel the miracle of self-creation you will say, "How fortunate that I was able to go the narrow path to achieve this wondrous spiritual quality."

There will be four more healing tapes before the Chicago seminar and each one will prepare us for new dimensions in healing. Joy to you for sharing today's message with us and may your day reflect the glory that you are.

Blessings from Kauai.

## TAPE 5

### LIFE BEFORE BIRTH

*Herb:* Soul to soul. Heart felt greetings from the island of Kauai. Once more we're bringing a message of the Christ to the Christ, which is a very pleasurable message and it is a great joy to be here to see that we have come to another place in consciousness. It is a place of high esteem but it requires a great deal of responsibility.

There was an old gentleman, a man named Melchizedek it was said that he was the Father of eternal salvation. If you look at Melchizedek's life you don't see very much of it. He's a shadow that comes into the Bible and fades out but while he's there Melchizedek does a strange thing, he receives a ten percent tithe from Abraham, the King of the Jews. That's fantastic. Who is this Melchizedek? Why does Abraham give him a tithe?

Listen carefully because you find that Melchizedek is a symbol. He's a symbol of peace, a symbol of righteousness but he is a perfect individual and the reason he is a perfect individual is that he was born without a process, he is without decent. That has a meaning that we all have to find out about. He continued unchanged forever. We are that way. Melchizedek was the forerunner to Christ. He was the Christ figure and all of the things said about him are cloaked in secrecy for a very simple reason. He ushers in an age and the same thing goes for Christ, He ushers in an age and we are the tail end of that age and it is up to us now to fulfill our responsibility. It is up to us to decide now between God and Mammon.

We have come to a place in consciousness where we are meeting people, people are coming to us. We are facing new situations and we cannot give a cold cup of water. We cannot be of a divided consciousness. It's time to wake up. We have been asleep too long. Being awake means knowing who you are. Everything in your experience depends on who you are. You cannot continue in doubt, in two selves, switching from one to the other. Until you have established one identity you have no right to represent yourself as a healer. And if you do know, and you practice it, you represent the kingdom and you will bless those who come to you for help and you will meet situations with spontaneity, confidence and righteousness.

But you must know that the number one truth about you, the truth that opens you to new possibilities, the truth you must express from dawn to sunset, from sunset to dawn is that you are immortal. You are immortal now. Not tomorrow, not twenty years from now, not in the next lifetime, but this moment. You are immortal now because God says you are. There is no truth greater that you will ever hear. There is no truth greater than you will ever see. There is no truth greater that you will ever be. Deny it, doubt it, answer to another name and you are asleep. Treasure it, value it, every waking second, respond to it every waking second and your

complete existence will change dramatically. Success or failure, joy or sadness, the quality of life everything depends on your realization that you are an immortal being. There's a big mortal mind right outside, it says that you are not. It says that you are human and you can follow that mortal mind until it spreads an illusion of wonderful things before you. It will run your life for you and if you let it, it will create good forms or bad forms, good health or bad health. It will fill you with the good things of life and then rob you of them when least expected. It will actually rob you of your life. It will rob you of everything wonderful that you create and it will fill you full of false ego that admires its own creation. It will make you watch while it tears down everything that it has built for you. Finally, it will take you to your grave. That is mortality and its destination is death. Its destination is the opposite of life but immortality, immortality, is the true gift of God. The wise man says: *"My brightest dreams go up in smoke. As a mortal my life is temporary, uncertain, at the mercy of wind and tide. I change in spite of myself. The world mind governs my destiny and then it returns me to ashes. This is not Gods way."*

God says: "Choose ye mammon the mortal way or God the immortal way." God says: "If you live in the world, the love of God is not in you." and God says: "Spirit is not born in the womb."

Now that is a very interesting phrase, all around you are the clues about your real identity but instead you have been fooled into reaching for the imitation the substitute, even a substitute life and a substitute life is not going to get you to the kingdom of God. You must make a choice or waste another thousand years reliving a lie, traveling over old travelled roads that you've walked upon many times making the same mistakes over and over, but now the secret can be told, you are immortal because you were not born in your mother's womb. Jesus has been telling you this for centuries but you couldn't hear him; "I am the Way, I am the Truth."

Well, Jesus was not born like ordinary folk. Jesus was not born of woman. Why do you think he told us to be reborn? He could have said, "You've existed before birth so get back to where you were." Instead he told us to be born again. To get back in consciousness, to the same consciousness that we had in the beginning before the illusion of birth occurred. Now this is very important, so listen carefully as he speaks to Nicodemus.

*"Except a man be born again he cannot see the Kingdom of God."*

Again:

*"That which is born of the flesh is flesh. That which is born of the Spirit is spirit,"*

and finally:

*"Marvel not that I say ye must be born again."*

Rebirth is the realization – it's not the traveling back in time - rebirth is a realization that you were never born. You see Jesus had realized this. He had not traveled back in time. He had realized his identity.

*“Thou seest me thou seest the Father. Before Abraham was I am. In the beginning was the word.”*

Do you see that? I am immortal Spirit. I am unchangeable. I am eternal Self. I have not evolved this way I simply realized that is what I am. That what is called birth was not my beginning. Birth was the beginning of a dream. Everything I was before the dream I still am. I too was reborn. I’ve traveled the same way that I told Nicodemus to travel. Wipe away the mortal mind pictures after birth. Wipe away mortality after birth. Wipe away the temporary self after birth. The illusion begins at birth. Birth is the place where the dream begins and birth is the beginning of your substitute life. When Jesus tells Nicodemus:

*“Marvel not that I say ye must be born again.”*

He is saying return to the eternal life in consciousness which you have never left. God created you immortal, you have never changed.

Pause a minute and think about it. Relax while you know the truth that birth is the beginning of the illusion and immortality is the never changing reality of myself.

[silence]

I am immortal. I have always been immortal. That puts me under a different state of law than mortal law. It brings me under divine law and I will learn how to live with divine law expressing Its will instead of my mortal will. That is the purpose of truth, to stand in the Secret Place knowing that I am immortal and therefore the mortal things that disturb me are not real. There are no mortals out there all is immortality and I will learn how to live with that and I will learn how to be that and it will take me direct to the Kingdom of God.

[silence]

The true translation of the words of Jesus are, your Self always lives in the Kingdom of God. You are immortal. You are before Abraham. The illusion of birth creates the sense of immortal life but the eternal Self which always exists is you and existed before the illusion of birth, still exists and always will exist. Birth is merely the place where man begins the dream. That is where he changes to senses. To a dying self. But I am before Abraham, before physical man, before the birth of the world. Five million years ago the human race was not even human. There were just gorillas. Think of yourself before birth then. You see, you were the same before birth as you are now. You were immortal then and in the dream was a life of a gorilla and it’s over. You even had the body of a gorilla and that body was the body of death. While you had the body of a gorilla, and the body of a human, your body of Life was immortal. No matter how many dream lives you had, you shut them out in one moment.

The minute you pause for a second of silence your real Self, your immortal Self springs to life and I am comes forward and the dream is put on hold. Every time you meditate you bring forth your never born Self and your born self goes to rest. “Before the world was” is the instant you pause and maintain the silence; don’t worry about time it isn’t there. The instant you maintain silence inside and dwell in the secret place with the Father in that instant

the world of time vanishes and you are back before birth, before the womb and you are living in the Kingdom of God. Remember that every time you meditate you go to the Kingdom of God. Now let's put this world on hold and give our immortal Self a chance to renew our strength, to renew our spirit.

[silence]

Do you feel it? Do you feel the pulse, the rhythm, the harmony, the Spirit. Do you see when the mortal self is still, all that troubles you vanishes. All the little frustrations, all the horrors, all the suffering, it never was, it was always in the dream and you may come back to it, oh yes you'll come back to it but you'll know that all that separates you is a dream. There are no broken bones, there are no bad debts, there are no emotional disturbances. Get hold of your immortality for it alone dwells in the Kingdom of God. Do you see the distinction? The visible world is the birth world. The invisible is a no-birth world, the immortal world but the invisible stays with you. It has been with you for millions and millions of years. It is always with you. I can never leave you. Wherever you go I go, I am the Spirit of God in you, your immortal Spirit. When you claim Me as the truth instead of the world, which is a lie, then you come under a new jurisdiction.

[short silence]

We can see what we have missed before. The rebirth of man from mortality to immortality was the secret that Jesus brought with him. He came into the earth to demonstrate it, to lead the way. His immaculate conception, called a virgin birth, was the prototype for man who was to be reborn from matter to spirit and it is accomplished by a return to a spiritual consciousness that is invisible before the dream of a life when physical time began.

The purpose of Jesus Christ is very clear; He was to lead us out of our illusion, our illusion life. The purpose of the mortal mind is also very clear; it is to lead us into the illusion. We can get out only by returning to our Christ mind, which exists before the illusion of birth, by getting out of the world mind with its endless contradictions, temptations, torments. Oh I know it's a task, requires complete fidelity to the will of the Father, to Christ in you but it's this Christ will which we are forced to follow in order to get out. Which opens the gates of the Kingdom to everyone as we give up our life in this world. The Christ replaces our mortal dream with the divine life - slowly. We take the play away from mortal mind, from finite mind, from limited mind, from material mind and we begin to live in the body of Life. We put substance into everything we do. We do not do transient things. We are joining the Infinite. The infinite body of Spirit.

The mind body, which in the human, stated that we were not from God, we were not living under the laws of God, and so our body had problems. We were operating without Divine instructions. Drifting from person from personal will but now we're in Christ will, we're breaking away from mortality, from mind concepts. We're getting our input from God and slowly we're transforming. God is not the Father of the human because no human exists. While we were living in a body that was born we were outside the law of God living in

separation, in separate selves each with a separate will and the result was that humans always were in conflict. They were at war with one another. One nation wanted another's land or its access to a river or its raw materials, vast armies grew to back their will. Each nation was committed to its own concepts and to concepts that support those concepts and on and on. One substitute for another substitute and always away from Divine will. That's how we lived in a human body, in a dream body, in a body separated from God.

Now we're coming under another consciousness. A new dispensation has arisen, a voice within ourselves is speaking. We're beginning to hear that Voice and what It says. When It says, "We are perfect," we listen. "Be perfect." While our heart is fluttering and our breath is short, go back in yourself before birth, you were perfect then and you are perfect now.

How can I be the Son of God when I am deeply in debt, when I am unemployed? Go back before birth and realize that everything after that was a total illusion. You never owed a cent, there was no money to owe. Your debts are as fictitious as is a person to whom you think you owe them. In the realization that you are spirit you will find gold in a fishes' mouth or some equivalent and your debts will be redeemed. Spiritual realization always brings release in one way or another.

[silence]

We are approaching a new level of ourselves. We have learned many things. We have learned to rise in consciousness. We have learned to meditate well, to know the truth, to know the non-power of material objects, but always we have found that somehow or other we could not protect ourselves from illness, we are always getting ill, and then we say, "Oh I forgot to do this or I forgot to do that." But that wasn't the case it wasn't that we forgot something we were going against the odds. We were living that divided consciousness and I know it and you know it. When we embark on a single divine consciousness you're going to go through sacrifices it is not an easy way. But I think you realize that it hasn't been an easy way with a divided consciousness either. And besides, if you're tired of the energy you put out on negation, on denying that you have this and denying that you have that, if you're tired of problems, if you have had your share and are still having them it's time to put all your eggs in one basket. And that basket is Christ. Who is Christ but the unborn self? Who is Christ? Is Christ a yesterday? Something that we learned about and then forget about. If you forget about Christ you forget about yourself. You are Christ and you are the immortal Christ. Christ who says to you:

*"Thou seest me thou seest the Father."*

Christ who says to you:

*"I am with you always. I'll be with you until the end of the world."*

Get wise. That's not another person, it's not another spirit, it's yourself. Into the illusion comes the Christ and He appears like an illusion and He acts like other people except that there's a distinction, every healing, every healing brought about by the Christ was

brought about by His immortal self. Every healing you do will be permanent only if you do it with your immortal Self. That's what it takes to do what is called a miracle. Your immortal Self.

As we dwell in the immortal self now, here we get a chance to put aside our toys, our many yesterdays, we live in time no more. We do not live in space, we do not live in matter, we live in our immortal Self and It is infinite. You start out with an immortal Self and you think of it as something in your body, but you come above that and then you come to your eternal infinite immortal Self. I stand in my eternal infinite immortal Self and it will do for me, for itself, all the things that Christ did during his lifetime. Jesus Christ graduated and He left an important message;

*"Follow me."*

Follow me to that great land where all is perfect. I know you see imperfection, it is illusion. All imperfection is illusion because only God created the universe, and God created a perfect universe. All that is not God is not. And only your immortal self will tell this to you. Dwell out of the land of illusion, dwell in the land of reality.

[silence]

We are joining Melchizedek the Prince of Peace, the prince of divine righteousness, born without process. The author of salvation. And as we stand in the Holy place we can feel the depth of our own immortal Self and it will call to us...

End of Side One

I'm going to ask you now to list five qualities. You can take a pencil and write them down or you can leave them right on your tape and take them off the tape later. I'll wait a second so that you can grab a pencil and paper if you want to and we're going to list these five qualities so that you can have them for use in the future. I'm talking now so that people who want to get a pencil can get it and we'll wait a minute so that you can feel that you're going right along with it. We're going to use these five points in the talk here today and maybe it would be wise if you could jot them down. Well anyway I'm ready to start and I hope all of you have your pencils, and the first one is;

1. **My Christ Self, my before birth Self is present.**
2. **All bodies are sense images.**
3. **Nothing I see today is real.**
4. **Improve no sense images.**
5. **Sense images have no power.**

Now Jesus Christ has appeared on earth to show us the I am the way and He has said;  
*"Follow Me."*

Before we were born He appeared on earth to show us that He was born of the Spirit, immaculately conceived. You remember at two years of age he lived in a spiritual body that was protected against death and destruction. You will remember that at twelve years of age he was about his Fathers business. He was living under the protection of spirit in his spiritual body before physical birth, and that's what protected his two year old body against the High Priest, and that's why he was about his Fathers business not his human Father. He was calling this to our attention. Just as at the wedding of Cana he addressed his mother as:

*"Woman what have I to do with thee?"*

The term that he used by the way was called Juval, that's a term used for a stranger, it was used intentionally of course. An impersonal term. The same term he had used for the woman of Samaria. A woman who could not give birth to spirit. That was the meaning of Juval. He was emphasizing that the living in a body that was before birth. He was living in a body that was before birth.

*"Before Abraham was I am."*

In short, I am - immortal. He was always telling us that he was immortal.

*"Thou seest me thou seest the Father who sent me."*

For three solid years he kept teaching that there is only one way to the Kingdom, that way is narrow. So narrow that few there be who walk that way. For three years he was doing marvelous things and healing everybody and the people in the world did not understand. He was living in the immortal body of spirit. And He knew - understand this please - He knew that the people He was healing were also living in the immortal body of Spirit. Do you see that? He wasn't healing their imperfections He was revealing their perfection. He was revealing that they are immortal.

*"Spirit is the first born of every creature."*

You'll find that in Colossians 1:15.

*"Ye are Gods little children and have overcome them because greater is he that is in you than he that is in the world."* John 4:4

*"I am in the Father, ye in me and I in thee."* John 14:20

All attest to the living spirit of God in you that you walk away from everyday led by the mortal mind and believe that you were born. Oh no time to face the reality. When an individual is born in the womb he can't be the child of God. Birth in the womb is not the child of God. You can't be one with God and be mortal. He's a mind image. Only immortal Christ

is one with God and Christ is not born in a womb. Paul caught this, he caught the fine distinction and he walked in the spirit.

*“He knew me before the foundations of the world.”*

Meaning, I was divine and complete before the foundations of the world. With this knowledge Paul lived in the consciousness of midnight; that’s the consciousness before human hood, before the false dawn. Paul was never born and in that midnight consciousness he couldn’t be held in a prison because he had no physical body. He was immortal. He was in the midnight consciousness, the consciousness before birth. Now we want to get to that midnight consciousness and we can. Your acceptance of spiritual truth, not lip service, but of spiritual absolute truth and no opposite, that is the essential ingredient. It is important to obey these truths that you first established that you are immortal and therefore you have no physical body. Let’s try that now.

I accept immortality as my only consciousness. Everything born of the flesh in the flesh dies, that’s a fact. I am Spirit not born of flesh. My life began before birth. What I was before birth was Spirit and I have continued to be Spirit, immortal Spirit. Everything after birth in the womb dies. Birth in the womb can’t be Christ that is the basic Christ demonstration. Only Christ, only Christ is one with God. I must be that immortal one. To be one I must be Christ. I must be immortal. I cannot be human and divine.

[silence]

Now I am ready, I’m ready to learn the basic points. These points are necessary to the midnight consciousness:

*“Because I am immortal my immortal Self is present.”*

That’s your first principle. I am not living a human life. I cannot be sick or have pain. Mortal mind feels sick, feels pain, I never do. Material sense feels pain. I must say no to material sense, to form, to physical body. The body is a mortal mind image. Because of my immortal mind I cannot accept the forms of a mind.

Now your second basic principle is this:

*“All bodies are sense images.”*

Just as I must accept that I am not in a body, no one else is in a body either. Look about you, there is not one body. There is not another body and a third body and a fourth body and five million bodies. We are all immortal and we live in one immortal body. I live in a immortal body my neighbor lives in an immortal body. There is only one body. All bodies are sense images. This will seem difficult but immediately we will notice a new sense of harmony. It is impossible for one body to be belligerent, sullen, uncooperative and the same body loving, cheering, cheerful, anxious, to please. There are no separate bodies in Spirit, all are one and one has no limitation, no boundaries, no finitude. Your spiritual body will not be

anchored to a place. It is never separated from God by birth or death. So now we dwell incorporeally in a spiritual body.

Your third principle:

“Nothing you see today is real.”

Mortal mind is ever busy building an imitation world. But God is all. We do not accept death. We are interested in life eternal and that is the only life that exists. We have become aware of God’s Consciousness as we’ve become equally aware of the illusion. We see nothing to resist. We judge not, we resist not, we condemn not and the reason is that we would only be judging our self, but, there is another reason - there is nothing to resist. I sit quiet now my eyes closed. I see all sorts of things. I let the images come directly toward me feeling their weightlessness, feeling their incorporeality, I impersonalize them. I can take about a half hour a day and see that there is no personal life. I impersonalize pain, sorrow, ugliness, uncleanliness, failure and their opposites. I’m learning how to live in no personal self. I’m beginning to dwell in consciousness and spread my actions with substance. I spend a lot of quiet time getting acquainted with my adversary learning his tricks, rehearsing my actions, reactions and above all the world has been reduced to a doll house. Even the big issues in life, job, family, friend I must learn to see their unreality because only Spirit is.

The fourth principle: “Improve no sense images.”

This is another severe test. You are given a variety of images and many of them are needful of repair. Your first impulse is to offer your help, do good, to improve them. You must remain faithful to God. Didn’t God make a perfect universe? Doesn’t God have the power to maintain a perfect universe? Have you been fooled? Have you accepted the belief that something in God’s universe is imperfect? Then the master hypnotist has fooled you too. You are trying to improve the imitation, and you are asleep. Spiritual healing is the very opposite. Always recognize the truth the instant you are given the problem. Nothing is wrong. Nothing is wrong. Accept the problem and then forget it and the person who brought it to you as well. Is that heartless? No. It is the truth and the truth will make you free and your patient free. The perfection of the spirit is a fact that never varies. While you forget the patient and the problem give him back his spiritual self and you will free that patient. Our fifth principle will follow in a moment. Maintain the consciousness. Five principles.

“My Christ Self, my never born Self, is always present and it’s the only Self I have.”

If I act in any other self I’m living in the imitation world. All bodies are sense images. There isn’t one body alive that isn’t reality. My husband, my wife, my children, my friends, the President of the United States, the Pope, all the nasty people who do terrible things, all the robbers , the murderers, the rapists - the rapists they are no-thing. You must know this about everyone you see. Nothing I see today is real. It is a fact. Four:

“Improve no sense images,”

But maintain the consciousness. Maintain the immortal consciousness. Know that all is perfect and is maintained perfect; and five? - five you do not have yet and that is coming up.

Your fifth principle is that:

“Sense images have no power.”

We'll think of Daniel in the Lion's den, think of the lepers. Think of an army trying to kill a two year old boy and failing. The human mind cannot figure out how it can be that the human hand can never touch the Spirit of God. Sense images are manufactured in the brain and they have power over other sense images because they are also manufactured in the brain but there the power stops. It is within your power to stop manufacturing images. The truth will make you free. That is why you start with your consciousness of immortality.

However difficult it is to begin and go through these five principles until you have mastered them. I call it the painless crucifixion. An attacker comes with a knife, disease reaches inside your body, the rent is due, the children are going hungry. Your immortal self has the answer but where is that immortal Self? It is the same Self that Jesus presented to the multitude. It draws from infinity. It is free of illusion. It has no personal selfhood. It is one with Source. It is a consciousness that exists before the human. It is your Self before the world illusion. It moves above the world mind universe awake not asleep. The visible images all take place after birth. The invisible Truth exists eternally before birth and continues to exist while the illusions of birth follow at the same time. The immortal consciousness sees no images. The attacker disappears, the disease vanishes, the rent is paid by a mysterious stranger, the two children do not go hungry. Why? because you are seeing them as the Christ and you are seeing truth of them because you are the Christ and because they are the Christ. Christ exists before human birth, Christ is your consciousness of immortality, Christ is one with the Father. We are gods little children and have overcome them because:

“Greater is He that is in you than he that is in the world.”

“If any man be in Christ he is a new creature, old things are passed away, behold all things are made new.”

Do not make the mistake for waiting for things to get better, they are better. Use the equipment you have. The life that was in the beginning, the WORD is still the WORD and dwells within you. Free it! We are children of God and if children then heirs, joint heirs with Christ that we may be glorified together. Your hope of glory is Christ within, immortal Self of every creature. The sooner you start seeing that you are your Self the Christ, the immortal, the sooner Christ will sit upon the throne of your consciousness.

## World Work

We have to do a little world work this time and there has been a change in daylight saving time, so check your time against California. We want to this time continue our efforts to learn about Self. Try to understand immortality. After you establish your silence try to dwell in the immortal side. Dwell in the immortal nature of your neighbor. Move across that fence and see that he is immortal too. Do that to the neighbors on the other side, to the neighbors up the street but certainly do that to him, establish his immortality. You'll notice that you feel differently about him and perhaps you'll notice that he feels differently about you. The immortality of your neighbor is going to be the immortality of the world. That is the consciousness that is growing. It is the consciousness that you require to make the voice audible within you. It is the consciousness of Truth.

So this Saturday at 3pm California time our meditation will be the immortality of your neighbor. I expect you to do that, to do it well. And I think we'll practice it for the moment so that we can understand what it is. My neighbor is immortal. I can take him by name or by appearance. Mr Richards is immortal. Mr Richards gets out there and he yells alot and his dog comes over and its not very nice and I dislike alot of things about Mr Richards, he makes noise at night, has his radio going or his TV going too loud. He doesn't know it but he is immortal and I know it. I know that his immortality is perfect. And there's no other Mr Richards. I'm going to extend this beyond Mr Richards to my other neighbors. I've got this secret of peace on earth, of goodwill toward man and I've got to live in it day in and day out.

[silence]

I can't think ill of anyone while I think he's immortal and if I think ill of anyone I'm disbelieving that he is immortal, I am in a divided consciousness, I will not fare very well because I have lost my God. Oh this cleans things up so much better. We have to think well of everyone. We have to think well of even the rapist, he too is immortal. And pretty soon there is no rapist you see.

Dwell upon these things, let your heart flow with your soul, let your soul flow with your spirit. There is one universe, one immortal universe and we all live in it and those who know it are making the transition to that universe.

Let us be still.

[silence]

## TAPE 6

### THE INFALLIBLE HEALER

*Herb:* Soul to soul, spirit to spirit, greetings from the island of Kauai.

Today we're going to try an experiment. We always have principles and we will have them today but we're going for a new depth. We're going to try to feel the substance. To be a real healer you've got to have substance. And I hope that today some of us or as many as possible come to a feeling that I have touched something new. We want to find the healer and it's very important to know that you are not the healer.

The healing consciousness depends upon several factors. The first is that you be awake. By that I mean that you be aware of the spirit. That you be immersed in the spirit and that the spirit of God is the healer. Whenever you're without the spirit you're without a healing.

One of the important factors in the spirit of God is that there is one immortal life and you can feel that life, you can be plugged into it, you can be it and you can share your immortal life with everyone in the world. You can give God to everyone who comes to you. They come to you with a hope and yet they're not reaching to you, they're reaching to God, and they're only reaching outside to God because they haven't find God inside. And you are to help them find the God of their own being which will heal them. That is the principle upon which we work. The immortal life, immortal life is the thing, the quality, the substance that we are trying to raise in man. We must lift him to the place where he feels his immortal life and to do that we must be living that immortal life ourselves.

The one false mind prevents you from living the one immortal life. The false mind which tells you, you have a body, there's a world, last month there was an earthquake, San Francisco famous streets were filled with confusion, Oakland's famous streets were filled with confusion too and all around the Bay area people were wondering what has happened. Man was asleep. Man was not thinking of the one immortal life and he needed it desperately. We must never lose sight of the life that we share with everyone on this planet. It is a one life. It is God's life and when you stand in the one life there will be no accidents, there will be no pain, there will be no death. You are under the protection of the almighty. And if you never do another thing you must train yourself and immerse yourself to always be in the one immortal life. It is the protection against everything you can dream of. You simply have to walk into a crowded room and there's confusion there, there's hate and jealousy and all kinds of feelings that people have amongst themselves. And when you walk in, you must instantly be in the one life and that will change the complexion of the room, the complexion of the people, the

attitudes. The one life sets the tone and when you're not in the one you're in the many you're in the confusion, you're in the hubbub.

Let's see now what it feels like to know the one life. It never has any pain. It never has problems. It never feels an ache. It never feels that the stock market will go up or down, it's not concerned about weather. The one life is in a state of total harmony and when you feel this harmony, when you get into it you know it. You can be meditating and not feeling anything at all and suddenly you're aware of something new. Something in you has stopped ticking, something in you that you don't recognize. It's a newness, a peace and now you're in that peace, as you feel the deep satisfying presence as you touch Christ. The peace that descends upon you is unlike your normal consciousness. Oh, you feel peace sometimes but this is a new peace it passes all understanding. It is as if you can't think. Something takes hold of you. Something releases you. And in this peace you stand silent, wondrous, feeling like a child again without care. Nothing can touch you and better still nothing can touch anyone in your consciousness, and you don't even have to think about them. The peace descends upon you, it lulls you, it takes care of everything that is in the world mind. I feel no worry about the future. I feel no need to check my financial statement this month. I feel the need to have bread. The bread that feeds the soul that tells me that God is on the scene and now infinity is mine. The whole world will be still.

I am not in humanhood, humanhood never was here, it is not here now. What tells me this? I am not in a human mind. The mind I have now is the mind I had in the beginning and the mind I had in the beginning was before the world was. The Christ mind. The mind that has ever been on earth is my mind, your mind. The mind that is with you now is the mind of God. It is more than a billion years old, it is timeless, it is eternal. When you feel this mind, feel the miracle of it because it is awake, it knows all things and it is accessible to you. The one immortal life which will never end, there will never be a pain or a problem in the one immortal life.

We are getting rid of the world mind, the mind that always stirs things up. The mind that has brilliant ideas and always sees those brilliant ideas through a glass darkly. For the natural mind is not the mind of God. If you have a mind that is smarter than someone else, that is not the mind of God. If you have a mind that is worrisome, that is not the mind of God. You see that? We have a million minds, we have nothing. Oh, we can build skyscrapers and a war can take them away. We can build all kinds of phenomenal things, they won't last, they won't fulfill us. But the Christ mind, the Christ mind brings to your doorstep the very thing that you need. You need a job go to the Christ mind. Is your marriage failing go to the Christ mind. Whatever you need the Christ mind is the answer.

*"For he knoweth your needs and it is his pleasure to give you the Kingdom."*

What are you worried about? Give him the problem. He isn't worried about you. He knows who you are. Where is your understanding? What has taken your faith from you? You are asleep. You are doubting Thomas. You are wondering what today will bring, what tomorrow will bring. It will only bring you the Christ if you will let it and the Christ lives your life. One, immortal, life. When you accept immortality the words are not the acceptance. The way you live in immortality you do not sit around and wonder, you do not have a life to lose, you do not have anything that you can gain, you have everything. Nothing can be taken away and so you rejoice and you say to that pain that you have, "I do not know you. You are not my being. You are something that has been added. Nothing can be added. Where did you come from? Oh, oh I see you stole in. You started dreaming and you made me feel that dream. I dreamed I had a sore toe, I dreamed I had cancer, I dreamed many things." And then I acted out the role, because I have cancer this must happen and that must happen. I saw the doctor, I talked to him. He said, "This situation is very serious." And I listened, I believed him. I cannot have cancer. I'm talking about me. Me has cancer but I, I am the immortal life of God. I am the Christ mind. I look and I see, I see what is there. God never placed cancer upon the earth how can I get it? Only by a dream and that dream is going to pass away for I am going to awaken. I will awaken now in the Kingdom of God where the law is perfection. Oh, but I cannot take my human body with me. Ah, did I think I had a body? Yes, I did I was dreaming. The human body does not exist in the one immortal life. So then, I have to leave my body outside. But, I have nothing to leave. You saw Jesus walk from this earth what did he take with him? He didn't take a body. Did he take a human body? Of course not. And everyone who leaves takes a human body they think and they bury it they think. But I, am coming above the human body. I cannot encase the Christ life in a human body. Oh, that's what Lazarus was doing showing the non-existence of the human body. That's what Jesus was crucified for to show the nonexistence of the human body. And I wish to walk on this earth, in the knowledge that I have transcended the human body. It has no existence. It will be there in appearance tomorrow and the next day and the next day. But I will be working on the fact that I am not in it. I am not a human body. I am not a human life. Dwell with that, it is the truth.

God is one, one. Look all over this world and you will not see one, but that's all that is there, the one invisible, the one Self. And when you have awakened, you will be walking around in the appearance of a human body but you will be aware that you are the one invisible body of God everywhere. And you will see that as you develop this theme in you, the physical problems will fade away, the financial problems will fade away, all of the problems of discord will melt. Because you are inviting the presence of God to live itself as you and you will find that that presence does not share any space with another presence. The presence of God is unique, it is the only presence, it is the one presence, it is infinite. In that your human identity disappears, you are the one presence of God.

Can you feel a glimmer of that? This presence will teach you all things. It will tell you what to say, how to live, it will feed you and dress you and house you. It will do all the things

that you need, but it will do something that you don't know you need as well, it will bring you a realization of the one life of the universe. The one life that is your life, that is free, that is never anchored, that is not confined. Are you feeling something within? Are you beginning to generate substance?

Now a woman comes to you, give her any problem, you can pick one of five hundred. But she comes to a confident you, you know who the healer is. You know this substance within you is the healer and you dwell almost instantly in that substance. I'm not going to heal you, my Father in you will teach you the things you must know. He will teach you that you are perfect, P E R F E C T. (spells it out) You have always been perfect and now you are perfect as God. And why do I feel so bad? You don't feel bad, me feels bad, the world mind has persuaded your mind and me feels bad. Does I feel bad? I, who am the very healer that you have come to? I am your Self. You're living in a state of duality, I is you and me is that little fellow you brought along, the one who is always complaining, the one who always needs something. When me is no more I will stand in the field alone and I assure you that I am perfect. I am the life of the universe, the life of all men, the life that never sleeps.

*"Abide in me and I in you and you will bare fruit richly."*

Now then what are your human problems? The minute you say, "I have a human problem," you're denying your Christhood. You're denying that God is the substance of all form. You're denying that God is here. You're denying that God's law is perfect. There are many ways to deny Christ. There's only one way to know Christ and that's to be Christ. You say, "Why I can't be Christ, heaven look at my ailments, I've got this and that and the other thing. Even if I want to say I don't have them I show them forth." And I say, "Right this moment you are Christ and you've got to find it out someday. It's important that you come out of the world mind, that you shake off the dust of earth. The only thing that you require to feel perfect is the sure knowledge of God's presence. Your destiny is God."

Let's see if we can lift up the Son of man in you, that we can build some substance, some experience that you have had, somewhere that you have experienced God. Do you recall any? Wasn't there a time when something told you that God is here? You couldn't touch him but you could feel his presence. Didn't something happen in your life beyond your capacity, that was handled by some mysterious stranger? We all experience the presence of God at one time or another and then things come into life, we forget, we rush with a mad throng. But that experience is a real experience and it stays right with you. It is always true and it's always saying, "Come unto me, come unto me, for my life is your life." Do you see the point? There is never a moment that the life of God is not your real life. And so on faith, in spite of your problems, you begin to accept that God is here now, loving me, upholding me, waiting for the moment that I surrender. Not my human sense judgment, not my will, not all the things I tell myself that I have and must get rid of, I don't have them, I wipe myself clean of that belief. All that I have is God. All that God has is mine. I and the Father are... do you see a new meaning to one? I am the Father. The Father is me and my name is I, I, I. Remove the web,

the substance of God. Isn't God God's own employer, um-hmm, isn't God self-employed? No one can employ God. Then how come you're not employed? Because you do not except that you are God. And if you want to go by the name of Christ the Son of God, is Christ unemployed? No. I'm stuck all around. I can't find out my status.

Now, this universe is composed of God the Father and God the Son, and God the Son is sitting right inside you and has no employment problems. So why don't you just take the belief in unemployment, file it and then forget it. Why don't you be about God's business. God is always about God's business. Why don't you take God's advice.

*"In all thy ways acknowledge me and I will acknowledge you."*

We will be a society of one. Why don't you take God's advice that

*"I and the Father are one."*

Is it beginning to dawn on you what you have done to be unemployed? You have said, "I and the Father are not one. All that the Father has is not mine. The Father is not always with me." And yet you believed in your heart you believed that you are a good person. That you followed God, that you loved God. Do you see how ridiculous that belief was? You have some fence mending to do. You had no substance and you thought that it could be taken away. You thought a job could be deprived, you could be deprived of the opportunity to earn a living. Do you see how little you have believed in the Bible? It's staggering. You're probably going off and claiming ownership of something, maybe a car or a home. You don't own anything. Have you forgotten what you have learned? There is nothing to own on this earth. Matter does not exist. You see you have lived in a false belief of a material world of things to own, jobs to get. It isn't true at all and until you come to grips with it you are outside. You're knocking at the door and knocking and knocking and no one hears you God can't hear you. The only way you can be heard is to be nothing. That's hard for you to do and you don't like to do it but every knee will bend. You must be nothing in order to be all. You can't be something. If you're something you've adulterated, you're riding two horses. You're God's child but you're also your own and you want a job.

Now the best way to get one is to go to God inside. Touch the Father within, touch the Christ within that's who the Father is, and put your problem in Christ's hands and say to Christ, "Whereas I was a fool in thinking I was unemployed I have no need of a job." I have only one job on earth, to be about the Father's business because I am the Christ all the rest is superfluous." Well you'll never know it until you try it.

*"Of mine own self I can do nothing."*

I let God do God's work and I might be unable to stop the fullness, the plentifulness, that comes in the way of one little person who steps out of mortality into immortality into the painless, deathless life and finds that she is infinitely employed.

We have similar problems in marriage. Oh, I tell you that really is a problem isn't it? But you see marriage is based on twoness and twoness is one too many. So if you've got a two marriage you've got a difficult one. There has got to be a place where two come together as one and they come together in their Christ acceptance. When they both know they are Christ they have reached the basis of true understanding.

Marital problems are also based on first two instead of one and then separation from God. Of course, if I'm separated from God I've got all kinds of problems. Sometimes, when you can't find the understanding, when you can't get into oneness, when you're bickering, then the separation may cause the couple to find harmony elsewhere, because the only marriage that gives you full satisfaction and which fulfills the divine will is the mystical marriage. And so God says,

*"Loose him and let him go."*

Who is my brother? Whoever does the will of God is my brother. Does my husband do the will of God? Does my wife do the will of God? If they don't do the will of God how are they ever going to get together? You see people travel at different speeds. Leave husband and leave wife, leave mother, leave father and never above all depend on anyone for a living. If you're living under spiritual identity you're living under grace and your needs will be provided. Oh, you say you don't see how. Well, it is good that you don't see how because when you see how you will always be working with the sweat of your brow. You'll always be finding you've got to earn a living. Whereas in spirit one doesn't work for a living, one works for joy.

Open your heart a little bit, start to share. Realize that you have all God has you have infinity to share. Depend on no one because God is my sufficiency in all things. Now think it through carefully. You've got to be centered in God that's your number 1 priority. That's all you've got to do at all times be centered in God and everything must come your way it's a law. Spirit draws unto itself. Spirit will employ you because spirit is you but if you're not spirit or if you disclaim being spirit or if you act like a human and not spirit how can spirit serve?

[short silence]

"Abide in me in all thy ways. I will fill your cup. You will bare fruit. You can never be without." Every problem in life is a problem only to the person who is not in oneness with God. That is your infallible healer, the spirit of God in you. When you nothingize yourself, your body, your mortal life, get yourself out of the way, you will discover the amazing truth that God lives your life. So climb up, climb up to that circle of God where all there is is divine substance. You see you've got all the divine substance there is but you're asking for things, you're putting the cart before the horse. There are no things to get. That long list that you prepared, those things don't exist.

There are people going to come to you and they're going to say, "Heal me of this and that." And I'm going to tell you a strange thing, don't heal them and don't be kind to them because tomorrow they'll be back with another thing to heal and they'll need some kindness again and you will be giving always what you don't have. Heal no cases for the simple reason that there are no mortal cases. See the case as immortality refused and see them as immortal life. And when you see them as immortal life, see them as they are in Gods eyes without problems and don't think your work is done then, you can't take a physical ailment and toss it out of the window. But now see if there isn't something in you, something deep, something real, something alive that you can share.

I find another level of healing when you brush past the mortal appearance as a nothingness and you are feeling your spirit as a somethingness. You can go to that person and share your one spirit between you. In fact you can go so far in sharing your spirit that you can have an experience inside which will tell you that you have shared your spirit. When that person to you is spirit, when you are spirit, when there is one body between you, you will find the strange sensation of having your spiritual body and his or her spiritual body in such a perfect state of oneness that it feels as if the two have gone through a process of being blended into one. You can actually feel the blending that's like a transfusion. And the other person says, "I feel better." You have lifted him up spiritually and even though he doesn't quite know it, you have brought him to a state of realization of one body.

Everyone who comes to you is God there isn't any other being on earth. I God, thou God, one God. Thank you Father I behold thy presence where the Christ of my being is. I behold thy harmony, thy love, I behold every need fulfilled. I feel a divine substance in all. Loose him, loose her, let them go. The divine substance animates their being. It needs no help of any kind. This is to be felt within sacredly and secretly and told to no man, not even to the patient. Because, you want to invoke the experience when he or she feels that divine substance that will be healing enough.

The children of God are bound together by one divine substance, and when you deny it for him you have lost it. When you see that your patient is the spirit of God, he has brought you the realization of oneness and you are benefited. Spirit is always working, always unfolding, always bringing you the highest. When you desire something, a thing, you have made an error, you've taken yourself out of the circle of God. You've given your life back to mortality. You must translate your life and everything in it to spirit. It is the only substance and when you step into another substance you have found something that doesn't exist and you are pouring your life into a substance that does not exist.

Do you have to tell spirit what you need? No. The wise man expects nothing. The wise man is a virgin he takes no thought. He lets the thought of God fill his entire being, he anticipates nothing, he seeks nothing, he expects nothing and he gets everything. Try to let grace live your life. If I were asked to define grace; **I would say it's a place where a person realizes that he is God and does nothing and God moves him.** God moves the whole world

in such a way that you find yourself in the Kingdom of God, living your life without fear, without pain, without disturbances. You're living by the Word and the Word is quick, sharp and powerful. You're living with confidence. You're living at peace with your fellow man. And each step of the way spirit leads you higher and higher just filling out what you are. And you take this with you wherever you go. Always knowing the spirit of God is who I am and the spirit of God is the only Self in this universe. Only God is present. It is a great and wondrous truth and as you stand in the knowledge of God's presence as the only, you don't have any past regrets, that would be a denial of God's presence being the only. You don't have any fears for the future that would be a denial that God is always on the scene.

Now then you're a healer and you have no persons to deal with and you've got to remember it and you've got to practice it. God will help. God will not admit false thinking into your consciousness if your consciousness is the Christ consciousness. So you are never dealing with a person and your treatment is always God is always that. And God will do the job of maintaining the principle of love and harmony and joy for everyone that comes into your consciousness as the Christ. You lift one person, you lift two persons, you lift the world and it makes you a whole person.

We're going to have a meditation now and let the spirit take you out of your mortality. Let it make you feel that mortality is a strange word, a word that should have no place in your being.

[silence]

You are coming awake. You have passed the point of sleeping. Truth is in consciousness and it will take dominion, it will bring order, even prosperity all by itself. You have touched the Father within. There is no chance, no luck, no false belief, you are working on principle. And if you haven't noticed it, one of the things that make you joyous now is that you are standing in the Kingdom of God here and now. And your spirit and the spirit of all is mingling in the invisible Kingdom of God. You are touching the substance of life and it is you and it is him and it is her, we are one in the substance. There is no karma. There is grace in action flowing freely to meet every need. We live by grace, by the knowledge that we are the substance of God and that substance provides an overflowing and that substance does not admit any form of discord.

### SPIRITUAL SUPPLY

*Herb:* From soul to soul, spirit to spirit, greetings and love from the islands of Kauai.

Today, I think we're ready for a spiritual supply. The type of supply that is quite different from the human form of supply and I think it would pay us to spend an hour or two, discussing the nature of spiritual supply how it works, where you get it. Plus a few things that may not meet the eye.

We're going to open our spiritual vision beyond personal sense and if we succeed in establishing a spiritual sense of supply that will be a tremendous advance, of course. But it's probable that we'll go beyond that. You can take a statement like;

“The Lord is my shepherd I shall not want.”

Then you can interpret it several ways. You can personalize it, that means that you depend on God to keep your bank account well stocked, your health protected, a plentiful supply of everything you need and always you're depending on God to be your shepherd and you shall not want. If you're a businessman, you expect contracts to keep flooding in and if you're a fisherman, the fish will keep biting at your line and so forth. And millions of families believe that this is what will happen when they believe that God is their shepherd. I think some of the millions of families though who have children who are starving and people who are sick, invalids, about nine tenths of the world is not benefiting by “The Lord is my shepherd.” and I think it's because they have a human sense of supply but God is not in a human sense of supply. That's shocking to some but nevertheless it's quite evident. As long as we have finite supply we do not have God supply. God supply is infinite and before we learn the infinite way, we have to make several changes in our consciousness of what supply really is.

Now you know it's not money because you have it and then you don't have it. Many rich men have suddenly become poor. So money in a bank will not be your supply, its not potatoes in a barn, its not shares of stock, or dividends. Supply is spirit. Now, you go and measure that into dollars, into dividends, into contracts. Supply is spirit it is not things. If you have the tree you have the fruit and if fruit was your supply and you didn't own the tree you would have to go everyday to get more fruit. But if you have the tree you have fruit, perennial fruit.

How do measure out six pounds of spirit or five hundred shares of spirit or ten yards of spirit? That's the one problem but there's another. It is very surprising and that's why I have to be sure that it gets into your understanding.

**Supply is not income. Supply is your outgo.**

Now let's consider that. As far as we know Jesus didn't own a thing. He was absolutely penniless. He didn't depend on anyone though, yet he seemed everything that he needed. For three years he was unemployed. I don't think he even accepted tithing from anyone. He had nothing. Where did his supply come from? That's one miracle.

The Bible doesn't mention the disciples of course. They wouldn't have millions either. They spent all day just meditating, studying, listening, for three years no income. Oh maybe they fished a little, did a few things like that, just picked up a few things they needed as they went along. It wasn't easy but somehow something took care of them. But they were not seeking more things. By worldly standards they were as poor as a church mouse. A church mouse had just as much as they had. By divine standards they had everything that God had because Jesus had taught them the secret of supply. They learned that their supply was not outside of themselves. That made it very difficult to give supply to your neighbor, to give supply to the world, how did you do when you had nothing? And then it dawned on them why Jesus taught them store not in barns. Supply was not physical. Yes, supply was real only within and this was the secret. Supply in the world was what you took in from outside. Here today, gone tomorrow, temporary, sometimes plentiful, sometimes short depending on conditions. If a depression or inflation came along supply fluctuated. A fire or a flood could remove your supply. They didn't have a stock market but today if it crashes, well that's the end of you if you're buying stock. Now that is only the human picture.

Let's look at Gods way. Of course it's very different. You must open out a way for the imprisoned splendor give something. That doesn't mean when you start to give, you start to get. You must give patience, you must give forgiveness, you must give love, you must give cooperation, not jealousy, resentment, impatience. Your supply is what you give. The bread you cast upon the waters returns to you as supply. So let it flow from you. Don't try to get, give. Giving begets grace, it begets health, companionship, opportunity. All is God appearing. Infinity must flow out. The miracle of good begins with you first and then it will find its way back to you with extra to share. Well let's find out how it works.

This is the first major secret about supply. Everywhere is I now. Everywhere is I now. I is your name. I and the Father are one. Are you cemented in that relationship? Are you constantly aware of it, I and the Father are one. One is everywhere now. You are everywhere now. If you understand the universal nature of I, Now, Everywhere the secret of supply will soon unfold. You depend on no man for supply because I am the I of everyone. I do not seek supply, I am supply. I am infinity. I am infinite supply. I am the infinite invisible. As I acknowledge my infinite I, I touch infinite spirit. I touch it everywhere. I forgive all. I love

all. I accept everyone now. That's your network, don't disrupt it. You love everyone. You accept everyone, You forgive everyone and you are everyone. You are everyone. When my love goes out to I infinite, it automatically comes back to me because I am the same I everywhere. Whatever I give to I, comes back to I. If I give forgiveness it bounces right back. By loosing it I receive it. If I let out the substance of supply it circulates right back to me. Everything I need I embody within me. If I want love, the more love I give out the more I get. Do you see that? If I give love here it comes back as friendship, cooperation, a home, transportation, translated by the power of I. You don't get back what you give, it is translated by the power of I, into whatever I need. Do you believe that? It works, it works beautifully.

Let's take Moses he needed manna where could he go to get it. To his spirit, his spirit gave it to him and it came down, translated into what his people needed. Elijah, he needed food, there was none in the visible world, where did he go? Well he didn't actually go, his spirit communed with the spirit of infinity and a Raven baked cakes. Jesus needed food, the multitudes were hungry and there was no place to get food except God, spirit. But he was spirit, he didn't have to tell spirit what he needed, he acknowledged his own identity as spirit everywhere. I am the life. I am the spirit. I am everywhere, that nothing else existed in the universe but I. Ah, not only am I everywhere what else is there? We're talking about the infinite invisible I. Is the picture becoming clear? You acknowledge your I as the substance of the universe and its not a mortal I or a physical I or a finite I, but you must follow these steps and you must abide in I and you mustn't act out of character with I. You can't be I this moment and me the next. Me gets angry, I doesn't. Me is jealous, I isn't. Me is lazy, I isn't. Me criticizes, condemns I doesn't. So you must keep the purity of I always and I know it's difficult, but when you see the rewards the difficulty is nothing.

Only spirit is and I am that spirit. And it was Jesus' capacity to be true to universal spirit without opposite and it manifested to feed the hungry multitudes. Everyone received a piece of fish or a piece of bread that day, received it because Jesus knew him or her to be the I, the Christ. That's asking a lot of you isn't it? But you either do it or you don't and you suffer for it. And because Jesus, the Christ knew it and acknowledged it and realized that everyone of the multitude was I, the Christ, they were fed that day. As you build up your consciousness of I the spirit of God and prove it by letting your love, forgiveness, cooperation flow out, you are loving the spirit of yourself as well as the spirit of your neighbor. You are realizing more and more the infinite nature of I. Until one day no longer do you meditate as I, the individual who wants better health, better job or a buyer for his house, you simply close your eyes, fill your heart and your soul with spirit. Without making a specific request, the infinite I of you stands in the infinite I of the universe knowing, spirit knows the need for which an individual has come to you and spirit has already supplied that need.

Come let the one self rest in the joy of being the one. Experience God within. Close your eyes, I am I, I am everywhere I. That's your magic hold onto it. Always know I am I. I am I everywhere that truly is Aladdin's Lamp. That will be your manna whether it's the desert

or in an earthquake or in a flood that fed Rickenbacker out in the ocean, that will always feed you. I am I everywhere. The God experience within your self becomes the manifestation of manna without. The God experience within became the multiplication of loaves and fishes without, out of nothing but the invisible Grace of God consciousness, I consciousness without taking thought about how God will supply you. Hundreds of multitudes and they all ate, five thousand men and women and they all ate, and he could have fed an infinite number because there were fishes left over, how many? Twelve and that is spirit, spirit's way of saying infinity. All this came from I infinite within, translated into the without. It was done without thought, by God awareness, infinity manifesting. Infinity manifested itself but only because, only because, there was one consciousness which knew itself to be I am. And we must learn to do this, that is your supply. We will succeed to the measure of our consciousness of truth, to the degree in which we practice impersonalization of ourselves and of God.

“Take no thought for your life.”

This is a secret revelation that your life is God's life, one life. Never think of yourself as a separate life. Immortal, eternal, infinite, and as you practice daily, the boundaries of thought slowly wear away, until there is no thought and Grace becomes your way of life. God experienced within becomes the manifestation without. All forms become the added things, now you understand why;

“The place thou standest is Holy ground,”

Because that place is where your divine life begins and it extends over the universe and it manifests on that place, when you no longer adulterate human thought into the purity of divine thought. The consciousness of omnipresence, your omnipresence, becomes the form of supply needed.

“Son thou art ever with me and all that I have is thine.”

Always the promise is present. Always it requires the awakened consciousness imbued with the spirit of God, knowing omnipresence is here without opposite, to make oneness tangible. Once more, the ingredients, I when I say I, I'm not speaking of me, I'm not speaking of ten, I'm not speaking of a room full of I's, I'm speaking about one spirit the spirit of all. Everyone in the universe combined is I. I'm not leaving anyone out. The spirit of God is not the person, it's the same for everyone, no color, no size, no shape, no human qualities. Nothing can be added, nothing taken away. It has no age, no personality, no personal characteristics, No good qualities, no bad qualities. I am in the midst of everyone and everything. I am the essence of everything now and forever and I in the midst, I am mighty. I am the universal life force. I am the substance of all form. Those are your ingredients, train yourself, tune your consciousness to the invisible, build you identity daily, carefully, of the perfect invisible, the infinite invisible in I. So that all are one in I. I am the perfect, infinite invisible. And let the consciousness flow with your life force, multiplying form as needed. As God is infinite, your supply is infinite. Now, this is your connection. There's one thing

missing though, nothing will work without it. Supply becomes evident only when you love your neighbor. You can't fool anyone. You must give out love, forgiveness, cooperation. Otherwise you're not accepting I am everyone. You can't skip one person. Your I ness is sincerely all loving or you divide God's garment and your oneness with infinity falls apart. One final ingredient, seek no return, no reward you must love unconditionally by recognizing only the one spirit where every form appears. The rest is up to you.

oooooooooooooooooooo End of Side One ooooooooooooooooooooo

Everything depends on how much you want this new consciousness of supply. When you looked to Jesus your eyes saw just the form of another man. You had no idea how he could be anything but what you see. You didn't know that he was infinite. Jesus was the infinite I, whatever you presented to him he saw it differently. He never saw fractions. He never saw a sick man. He saw wholeness. He was letting Grace reveal perfection where the human eye saw imperfection.

Now, you are building that consciousness. The world brings impressions to you, ordinarily you accept what you see. Now, with a new infinite consciousness trying to be born it is going to do the work within. It converts all impressions back to spiritual reality automatically, independent of your five senses which presents an imitation world, it preserves the original and it produces from the original within itself outer forms which bring the infinite invisible into your life. The infinite I consciousness does this for you, once it becomes automatic it's heaven. For a long time however it's difficult, but you adapt once you learn how to take no thought, how to put up no barrier, no judgments of the outer images that you see, no opinions, no evaluations, no reasoning and become detached - that's a hard word for some people to get used to - detached from the outer, knowing God is the only inhabitant of this earth. You will give the inner a chance to make the images conform to the divine plan.

We now know that God does not determine our supply it's determined by our belief, by our developed state of consciousness. Our experience of the I am, the spirit revealed by Jesus when he said, "Before Abraham was I am." He was not speaking of a man with a finite limited approach to life, but to him I was infinite. He was not enclosed in a tomb in the Holy land called body, he was spirit, infinite spirit, and he lived in the infinite kingdom of spirit. And you and I are being taught that as we approach that level which is the Christ mind our supply is maintained by Grace. We're also being told that we can attain that consciousness and because our way shower, our teacher is Christ we're being told that it is God's will that we attain Christ consciousness. The source of your being is God, your source is perfect,

infinite, eternal and because you cannot be less than your source your realization of true infinity reveals that I and the Father are not two. Whatever the Father has I have in fullness and I must press on, beyond human thought to Christ thought. Christ thought must fill my consciousness. If I and the Father are one not two I cannot have a separate form. I cannot have a separate form. I cannot be in one form and you in another form. If I limit myself to the experience of my form I'm just another mortal, a branch cut off from God. To receive divine thought I must be the tree of life. I cannot even be an individual branch. For I am the life of the tree and life can never be separate from itself. Release man, release your false sense of life in form. Awaken to the one divine life. Never let go of that vital realization, I am the infinite life of God and then trust it to be your sufficiency in all things.

Now will you sit in judgment of your own life? Do you have a separate life? If there is someone, anyone whom God does not embrace in oneness? Who is it? Is it possible for anyone to have another life? As the life is infinite it cannot exist or be imprisoned in a finite form. The form must be as infinite as the life and the substance of the form must be infinite and omnipresent. Another way to phrase it would be, omnipresence is the presence of infinity. Let's hold that thought for a minute in meditation. Omnipresence is the presence of infinity. God is omnipresent. God is spirit. Everywhere is spirit, God and God is all. If God is everywhere present and God is all then every disease on the face of the earth denies this. God and cancer, Spirit and cancer, can they exist in the same place? No, where spirit is cancer is not, but spirit is everywhere. If spirit is there God is not. But spirit is everywhere, go deeper where is the cancer? Well, where is the cancer? We've just decided that God is all and everywhere.

If the phone rings right now and says, "I'm suffering from angina." Are you going to panic? No, say to yourself, "Where is the angina?" There's no place that it can be and your realization that there is no place where it can be will manifest as the healing. Truth in consciousness heals but it must be truth realized not words. You've got to feel it in your depths. There's no place for disease in omnipresence. That consciousness realized was every healing of divine law, every healing of disease by Christ Jesus. There's no place for disability, pick up thy bed and walk. When you face disease or disability in your healing work ask yourself this question, "Where is the disease, where is the disability?" And then relax. Omnipresent spirit has no place where disease or disability can occur. You are looking at an illusion, but 'you' are looking at an illusion. I am looking beyond the illusion. The infinite I of you must do the looking. The infinite I of you must unsee what the human eye sees. You see an image in mind called cancer or disability. You see that in a mortal mind, still divided between the belief in good and evil. You are serving mammon not God. It's not a crime. You must do this again and again and again until you have overcome mortal mind. Until you can see with the inner I, with the soul and you can then know that there is no disease there, there is no cancer there, there is no disability there. Suddenly, the consciousness of the omnipresence of God removes the belief in disease and disability. The belief is gone, you

know it isn't there. You can look at an earthquake and the belief will suddenly depart in the midst of the earthquake. There's no earthquake here, there's no epidemic here, aids is not here, flood is not here, fire is not here, I am not here.

When I first heard the voice say, "You are not here." I was shocked completely. I was coming up an elevator and I heard it, "You are not here." I looked around at everybody in the elevator, we got off and I thought maybe I was mishearing, as I got off the elevator I heard it. As I was sitting with friends to dine I heard it again, "You are not here." Yes, it's a very funny feeling. I even looked around to see if anyone knew that I wasn't here. It's very different but it comes with the healing consciousness.

Your big question might be, what if I know the truth, I know it, but the problem continues to appear to haunt me. What if I know the fire isn't, but it burns down my house, or the earthquake can't be, but it crushes my home? All I can say is, it happened to Job and if you get the message from that everything will be revealed to you. In the consciousness of God's presence, in the knowledge of the perfection of God's presence you are assured that there is no disease, no disability, no disaster, you are also assured of continuous supply. God never needs a thing. Christ consciousness maintains itself, every need is met, whatever form is needed will appear.

Now let's look at the omnipresence of infinity. You're walking in infinity all the time because it's omnipresent. At any point of infinity, infinity is still omnipresent. Infinity is infinite from any point you touch it in the spirit. Can God's infinity be limited? No. Can omnipresence be limited? No. Then God cannot be limited. Can God's body be limited.? No. Therefore God cannot be in a limited form." Son all I have is thine." Can your body be limited? Before you answer that, think. God is the substance of all form, why? Because God is infinite and God is all. Your body cannot be limited, therefore where is your body? Stop and think of yourself. You cannot be everywhere and in a body, and you are everywhere. Your hold unfoldment depends on I everywhere and therefore you cannot be in a body, but if you don't know it, it cannot function for you. You should take time to know I am not in a form. I am not in a place. I am omnipresent. I am everywhere. You must know this, you must be conscious of it until it's an automatic thing. If you take a half hour a day to recognize the omnipresence of your I you will be doing yourself a favor.

When omnipresent God offers you everything, how can you be limited? How can anything in you be limited? That knowledge, that I am one with God who is infinite supply and omnipresent, gives you pure truth that you are invisible supply. Wherever your form is you are invisible supply. Because, the you that has infinite supply is the infinite invisible which you acknowledge. Practice that, you'll find it very worthwhile. You acknowledge yourself to be the infinite invisible and it is the substance of everything visible and it remains your infinite supply forever. You don't even have to pray for it. Your awareness of infinity determines its appearance. Knowledge appears as form, spiritual knowledge. If you are living,

moving, having your being in the presence of God, like the Prophets, that presence becomes your shelter, your protection, your security, your everything. Just to hold the presence of God in consciousness and to know that I am this presence without opposite, touches the infinite presence itself. And this realization is the power of multiplication, even the raising of the dead.

Now, let us be still, impregnated with the living Word, and miracles happen. No mental power. Do not demonstrate anything. The presence of God will demonstrate itself as form. Now, ten minutes from now, it has to demonstrate itself as form in your life. We want to hold this. We're asking for nothing. We're merely knowing the oneness. The I that is the universe, the I that I am, I cannot be cut off from God, who is spirit and that same spirit I am. It's an incredible truth that God and I are one, of the very same spirit and there's only one spirit which God is, which I am.

### **Meditation Times & World Work**

Well, we have one more talk to go and then we're off to Chicago. The Easter Seminar will take place at the weekend of Easter, starting on a Thursday night ending on a Monday morning. I think it's probably the 16th I don't have it in front of me but I think it's the 16<sup>th</sup>. And we invite all of Chicago to turn out and the next town and the next town and the next town. We have room for you, we have an infinite conference room and we want to share the healing experience. This has been a preparation, we want to now get into it. And so you can be sure that the last talk will further that preparation.

As far as our Saturday meditation, let us take into consciousness that disease and disability are impossible, in the realized presence of infinite spirit as the omnipresent truth. In the realized presence of spirit, of infinite spirit as the realized omnipresent truth. In fact if you cared to, you can join me every morning at 6:30 am. Hawaii time is 6:30 a.m. The Saturday meditations for example are now at 6 o'clock California time and I will join you at 4 o'clock which is our time here. But for these morning meditations I'm going to do them at 6:30 a.m. I'm sorry if it's a little later than you can spare. I'm doing them here at 6:30 a.m. in Kauai so you will have to see what time it is, its 8:30 a.m. in California and you can go from there around the country and abroad. I'm pretty sure that everything you experience will be the fruit of the spirit and I'd like to speed up our meditations, frequency that is, so that we can really from now until Chicago get into the mood of it. Show up there sort of ready for anything. So that will be 6:30 here, 8:30 California everyday, everyday that you can make it.

Even on Christmas morning, we want to make this year end the spring board for a beautiful expression in 1990. Because during the coming year it is our hope that we will see all of you again and hear from you in many ways but mostly, we would like to know that the

message has taken root, so that you won't be looking for Christmas once a year but Christmas everyday and by that I mean Christmas, Christ mass everyday. A chance to know the Christ within is not a one day a year, it's a joy every minute and we wish to inculcate the deep need and deep reward of being aware of Christ every single second. Christ wherever you look, so your instant reaction to anything, is not what my eye sees or what I feel. But how does Christ see it? That will become an automatic thing. A thing that we hope will change this world. This is definitely a spiritual age and this is definitely the time when man awakens from the mortal sleep. And we are going to further that day, so that it comes upon you as a much cherished reward for your effort, in remembering that everyday is Christ day. Going to see you soon and I thank you for being with me throughout this year and we're going to share a lot of experiences in the forthcoming year. By the way look for your tape later in January about January 15th. Until we meet soon. Aloha.

## TAPE 8

### FREEDOM FROM MIND

*Herb:* Soul to soul, spirit to spirit. Greetings from the island of Kauai.

Just a reminder that March 1st is the cut off date for your reservations to the April Seminar. That gives you about a month and a half to mail in your reservations. We have a very beautiful convention hall with very comfortable and airy rooms and a special pool for your enjoyment, lots of facilities including a modern gymnasium; its all very beautiful and I'm sure you'll be delighted with it.

A problem that you may have felt is that Christ teaches; *"take no thought for your life."* Again you find in the teaching another statement. At the same time you are asked to take no thought, you are told, I am, the Father and you are one. I and you, I the Father and you the Son are one. *"I in the midst of you am mighty."* Creation is greater than the human self. Greater is he that is within you than he that is in the world. There are many other truths that you are supposed to remember and I call this to your attention so that when the call comes for help, when you're faced with a child who has leukemia, or an adult stricken with paralysis, there is a tendency to think the truths that you know, which is the exact opposite of take no thought. You may find this very confusing and so it's important to learn how to face the situation with a clear channel.

The answer is really very simple to resolve the apparent contradiction. The solution lies in a matter of sequence. You don't take no thought and try to remember these laws at the same time. And if you can't go right into take no thought you simply remember the situations, remember the phrases, remember all the truth that you know very briefly, your taking thought consciously, but its getting you in the atmosphere of Spirit, it's preparing you to listen to Christ within; to feel that you and God really are one; to know that there is something in me that is greater than everything is this world. And when you do that again and again when you're called about a child or an adult stricken or in some way needing your help, then these truths are in you, they're known, you deal with them everyday, then, you approach the situation with no thought. But if you have to stop, if you have to reach out and if you have to dwell, abide, saturate your consciousness with the knowledge of God's presence, and no other presence, then do it, and face the situation with total "no thought" after you do it. I hope that clears it up so you're not in a position of feeling, "well how can I take no thought when I don't... I need to take thought to know these things."

That has always bothered the student and I hope you know now that what you do is bring God to the situation and then get quiet and let God do the work. You're going to become a master of taking no thought. This is going to become what you automatically do. In fact you start to take no thought the minute the patient starts to tell you what's wrong.

Joel tells a story of a man who was going with his family on a weekend vacation and he got up early one morning the day of the trip and he started to pray, "Oh Father keep the weather good. Keep those drunken drivers off the road." That sort of thing, and he just went about it very thoroughly for quite a while until he felt real satisfied and the next thing you know the entire family woke up in a hospital! His divine protection was not there and he had taken the trouble to arise before dawn, appeal to God, ask for all the things they needed for comfort on the trip and for safety, what was he doing in a hospital? It seems that the various things he had mentioned were the things that tripped him up. He had no idea that he was violating divine law – no idea! He had prepared the way for the very accident that he had tried to avoid. Now how did he do that?

In his mind every member of his family was separated from God. What he wanted was oneness, but they were all separated, and their will was separated from God, and their bodies were separated from God, and his mind was separated from God. All the alcoholics had a life separated from God, and a body separated from God, and a mind separated from God. He wanted God, the higher power, to overcome and protect him from the lower power, and that sounded exceptionally reasonable to him. But he was living in a world of matter, of images. He had created with a bad power, that he had created, and he experienced exactly what he had believed.

Many trusting souls think God will prevent and protect them from every evil and when it doesn't happen they're confused. Somehow they feel that God let them down. "Why didn't God do these things? I mean I took the trouble to speak to God," but really they let God down. They violated divine law. They acknowledged separation from God and it hit them almost instantly, they acknowledged a God who does not exist. A God who permits alcoholics in his Kingdom. A God who makes good vacation weather and bad vacation weather. And he had immersed himself in an entirely foreign situation; a situation which left him vulnerable.

Now you can see that such a person has not even a vague idea of the Kingdom and who God is. "*Acknowledge Me in all thy ways and I will direct thy path.*" Acknowledge that the God you speak of so glibly, is also your life, and that, "*I and my Father are one,*" life. Let's awake that power of our life and let it work by knowing that it is within you. Because the life that we enjoy as humans is our sense of life, but the individual life, the real life, the life that is every man's birthright, acknowledge that eternal life, not only in yourself, but in every man, the life that is Perfection. Everyone in the world embodies that life and everyone in the world must be included - not in your prayer - but in your basic knowledge. Invisible God life governs this world; unchanging, perfect, forever.

Now let's suppose you go to an astrologer or a clairvoyant and you get a reading. And the astrologer tells you that in 8 months there will be a tragedy in your life that will change it completely. That gets into your brain, it haunts you, affects your work, affects the things you do, it invades your thoughts, seven months, six months, five months; what are you going to do about that prediction? This astrologer was not just an ordinary astrologer, he was the same one used by the President, the same one that Nancy went to, this astrologer knows her business and you've got a big bundle of fear. You're losing weight, your work really suffers, and as your problems pyramid you can't get a grip on yourself, because you're three months away from a tragedy. But you see, you're just like the fella who prayed one morning for that vacation; you're not acknowledging that God is your life.

Can there be a tragedy in God's life? Have I been giving power to another power than God? Is my mind denying that God is the only power? I have been violating divine law. Now let's sum it up.

When your mind prays to God for attention, you're not praying to God's mind. When your mind accepts a strange power and strange possibilities, you're preparing for a real tragedy and God hasn't prepared one for you. This is not the mind of God, but there is only one mind, what have you been using to think with? Does the mind of God fear? Does that tell you something about your mind? Is it your real mind? Is that why it fears? Is that why it believes in a life separate, apart from God; a life that can be destroyed and unprotected against evils that do not exist? That's why it believes that patient's can come to you with pains, diseases, conditions, and it is not so. Every patient who comes to you has relief in his false mind. "Relieve me of this problem." Your job is to know two things; they're the most important truths that a healer must know;

1. **Your patient is God.**
2. **Your patient is perfect because God is perfect.**

Now that's your entire healing practice. You have the patient who is always God - invisible. You must look at him/her you must know that this is God, the problem is not there. Now that's simple to say. Later it's simple to do. It's got to become simple to do, because you've got to see the truth. You don't have to heal that patient. You have to sit there. You have to refuse to be hypnotized. That's what you must do; look at every patient and refuse to be hypnotized, but that's not all! Into the belief that he is imperfect, you must inject the idea that God made him perfect, keeps him perfect and all this perfection is invisible. Now how are you going to get that perfection out into the visible? First know it's there, that patient is God.; until you have no fear, absolutely none! The patient is made in the image and likeness of God. He is hypnotized. I shall not be hypnotized by the appearance. I am standing fast in the conviction, not believing my eyes or ears. And when I am no longer hypnotized, neither will the patient be.

Let's hold that. Let's hold that in our consciousness until it is the only thought we have. And even let that thought go now, your trust is total. He came to me, he thought he had this and that and the other thing, I said not a word, but I listened, and I know that he is God. I know he is God. And right here in my consciousness the hypnotism stops. I don't expect him to jump up and do a hundred yard dash, or his bad heart to start being a wonderful heart, he is God, and my function is to restore him to himself, to bring him the 'experience of God'.

Now a girl phones, from Annapolis, she has a kidney infection. She calls back in one month to you and says, "it's better, the kidney seems to be healed." But she has a friend and her friend had something quite similar. Her friend went to a psychologist, and it came back to her friend later with increasing pain. Now this that she's free of in herself, will it come back? And you sit there and you think, "well if she gets back into the stream of thought with the world it certainly can come back," but she doesn't know that.

How can I tell her that there's a difference between spiritual healing and psychological healing? There's a difference in range and a difference in depth. Christ healing activates your soul. Psychological healing works on the mind level. The soul level is God ordained. The mind level has absolutely nothing to do with God. Psychological healing is based upon the premise that a wrong thinking individual, causes his own physical problem and that a right thinking mind can correct a wrong thinking mind, and thus, eliminate the problem. For a time this seems to work, but there's a universal belief in the world and it will eat at the patient, and the patient's belief system will incorporate that universal belief, and subliminally, it will embed itself in that patient, and while a patient thinks he is cured, something will happen inside to return again if that patient is still in the mind.

Spiritual healing does not rely on the human mind. That's one human mind healing another human mind. But every Bible healing there's not one isn't spiritual. Jesus knew that he stood on Holy ground, he dwelt in the secret place of the Most High. He had divine healings because he obeyed perfect divine will and we must do the same. To Jesus every so-called patient was God invisible, therefore perfect. Did Jesus care about the right thinking of an individual? Do you see that? Or the wrong thinking? He knew that no one is apart from God. He knew there is only one Cause. He saw everyone standing on Holy ground. He did not deal with the human. His job, our job if we accept ourselves as healers, is not to change a bad kidney for a good kidney by right thinking, but to bring to everyone the experience of God's Grace. It's the very opposite of correcting the supposed error. Christ healing, true Christ healing is the recognition of God's perfection. It has none of the artificial trappings that we mistake for technique; there is no laying on of hands, there's no will power, there's no right thinking, there's nothing for the patient to do but recover from what he did not have, and to stop denying his birthright. As the Son of God, Christ went through the Holy land breaking hypnosis and that is what we are striving to do -- to break hypnosis. The only thing we need is the consent of the patient to do it. And then he can be in China. He can be in India. He can be in the hospital. All we need is his consent to break the hypnosis and we can do it from any

part of the world. We will bring him the Light which is already in him. We will bring it to the Light.

To pray without ceasing, is the holiest prayer on earth. “Lord, let me be an instrument of thy light. Let me be a bearer of good tidings. Let me see thy light in the darkness; in the darkest corners of the earth. In every heart. In every home. In every soul. Let the Light that is man, shine forth until the earth is transformed to heaven. until your creation shines forth with a power and the glory of thy Self forever.”

We have been saying God is all. Then no person has ever died. When you realize that no one is sick or dying, then you really believe that God is all. And you’re really abiding in the secret place of the Most High. Your successful work healing people, depends on this truth, not only that, but your own divine immunity depends on this truth: *No one ever dies*. No one can ever die, because God is all. And with that truth you can learn to face every situation with courage, with confidence, and triumph, and survive. When you know that truth, you have broken the prison of the mind. You have discovered that birth and death are the same fiction, of the mind that violates God law; that the beginning and the end represent a false drama, because God is the identity of everyone, every form, and when the image of form vanishes, God is still there! Mortality is gone and the one immortal invisible indestructible Christ is there! That is why, “the place on which you stand is Holy ground.”

We can’t tell this to the world, to our patient, but when we realize it, and bring the knowledge to our healing work, we are without fear, without division, and the confidence we feel reflects itself in the quality of our work. You complete this truth with all the implications it brings to mind. You will learn much more because truth has a way of revealing more truth, so don’t be afraid of truth, it will lead you deeper, deeper, deeper, until you are catching a glimpse of your Kingdom.

oooooooooooooooooooo End of Side One ooooooooooooooooooooo

From this view of the nature of God and man, we begin to get an idea of the nature of man. The outer physicality is ever changing, the inner spiritual Self is unchanging. It is the WORD of God, the God self, that teaches the way to the Kingdom. When you are controlled by the mind, your God self is not getting through. You don’t give in and you don’t live in the rhythm of God. When you still the mind, your God self comes through and then you are taught by God. Is that clear? The WORD teaches you, and gradually you undergo a change. The outer changes, to conform to the inner. Everything you must know is conveyed from within by the WORD, and when the mind is still, and as you continue in the WORD, it gives you new vision, new hearing, new sensitivity, always to fulfill God's will and purpose. And

finally, when your lessons are learned direct from God, God teaches you how to be his Son, and the WORD is made flesh. You must submit to the WORD within, the Christ, who has the Father's ear, and by submitting to the WORD you are taught by God.

Remember only the WORD survives. You can call it I. You can call it Christ. You can call it the Son of God in everyone, but be My Son, be the *living* WORD, because unless you are the *living* WORD, when your world disintegrates you will disintegrate with it and everything you value will go up in smoke. You will no longer begin another lifespan, another parenthesis, if you are the WORD. But you will begin once more your divine life, and you will live where there are no opposites, where there are no doubts and no fears, no frustrations, and you will have learned that life goes on and where you walk, your foot will not stumble.

*“My Son, forget not my law, but let thy heart feel my commandments.”*

This is the first verse of Proverbs. One of the greatest problems we have in reading this verse is that we think of the Ten Commandments, but this verse applies also to the Ten Soul Commandments, which are given by Christ and reduced to a number of two, among which, is the greatest commandment that anyone can ever know. “The Son of woman must be transformed into the Son of man. He must be born of the Spirit.”

The Old Testament writers hinted at transformation. When Jesus came out of the Essenes and demonstrated transformation, they were shocked, the days of talking about it were over, the days of doing it had just begun. The promise that it could be done, was always present in the Old Testament.

*“For length of days and long life and peace they add to thee.”*

And the book of Proverbs goes on.

*“Let not mercy and truth forsake thee. Bind them about thy neck. Write them upon the table of thine heart. So shall thou find favor and good understanding in the sight of God and man.”*

This doesn't tell you much does it, but it's leading you to an important conversion. For the next word is important, so important, that if obeyed it can bring you to a new level of consciousness.

*“Trust in the Lord with all thine heart and lean not unto thine own understanding.”*

These words were spoken on earth and the world had never yet heard of Jesus Christ. They had never heard of the inner Christ, and yet, Christ was speaking these words. Scripture has always been leading you to the inner Christ, to take man from the law to Grace. Always the voice within which spoke within every Prophet was Christ, providing a continuity of Christ purpose; a continuity of purpose that you can trust.

*“In all thy ways acknowledge him and he shall direct thy paths. Be not wise in thine own eyes. Fear the Lord and depart from evil. It shall be health to thy name and marrow to thy bones. Honor the Lord with thy substance and with the first fruits of all thine increase.”*

The discovery of Christ in you, is the beginning of your rebirth. From that moment on you are safe. Your journey is inevitable, and at times you may seem to struggle, but Christ has a firm grip on your infinite life. Your vision may temporarily cloud over, but Christ within will keep you on course. Your clear teaching, is that Christ within is your teacher and you slowly are led by the mind of Christ, from your reliance on your human mind, to the Christ mind. This Christ mind guides you in spiritual living. It takes you from mortal thought, mortal beliefs, mortal will, gradually lifts you from mortal limitations where you can realize the full power of God is functioning wherever you are, at all times.

There are many ways the presence of God is called to your attention.

*“God is light, in him is no darkness.”*

Saul was on the way to Damascus, suddenly a light shined all around him. Later in prison, when the prison doors were opened without a key, a light shined. Where did this light come from? It was the light of the Christ within Saul, shining without; and while you walk this earth, the light shining within is always there.

*“And yet a little while is the light with you, so walk with the light lest darkness come upon you.”*

Walk with the light while ye live. Believe in the light lest darkness come upon you. Light is another word for Christ. While you have Christ within you, believe in the light, that you may be children of the light. So let's clarify this.

When Christ is born in you, you are the child of God. That rebirth, that Christing, is the heart of Christianity. After your Christing, there can be no death. So it is said, you cannot follow Christ into death. If you find Christ, then you do not die. If you do not find Christ, you remain in mortality still seeking the very Christ who lives within you. That Christ is within you this very moment – like a tight rosebud. Every divine law that you obey, opens the rosebud a little further. You may continue for ten thousand years with no release, if you act humanly and if you seek humanly and maintain human goals and beliefs, but when you live spiritually, the unfolding of the rosebud accelerates, releasing more light, more Christ action, until your consciousness catches fire with the realization that, “I am the light.” Then you can face the red sea, or the soldiers in the garden of Gethsemane, or even the disintegration of the world with its false suffering, and the light of God remains, you.

We have one important discovery to make now, and we'll do that after we meditate.

[silence]

I want to ask you where the light has been while we were asleep? Knocking at your door. Where were we while the light was knocking at our door? We were living in time. We were living superficially, in a sense of now. But we were not in communion with God. The god of time is not God. The god of time is a creation of man. Does God get a day older everyday? Does Christ get a year older every year? Time is a human invention and it lacks one thing; it is never now. It always was, it always will be. Now is past, while you even mention it. It's gone! And every second of time you are dying, like quicksand, each minute passes away, to be followed by another, and another, and another, which always pass away just as quickly as the first. Now how can man live in passing minutes? There's a mistake somewhere isn't there? What a fool man is to call the sum of passing, dying minutes, his life. That is not God's life. Do you know what causes these minutes? Your eyes, which see the sun rise and set. Your ears, which hears the crescendo and decrescendo of the wave. Your touch, which feels the rise and fall of the wind. Sensations, tell you that years have passed; sensations that cannot report the miracle of Christ, who never grows old, and of God, who was never born and never dies, because he is always, always now. As the Son of God is always now, as we are always now.

The transition from the momentary now in this world, to the eternal now in God's Kingdom, of reality, is imperceptible, but only to mortal sense. To you, your patient appears sick, but your patient is God. And why does your patient appear sick, because your patient is in a false now. He's in the fleeting now; the now that is gone the second it arrives. And God is in the now that is so permanent, that the momentary now passes so fast, with your eye and your ear and your senses in the momentary now, that they can never see God, the permanent now, face to face.

When time stands still in meditation, really still, the illusion of time is not there. And we begin to experience Reality. If you could meditate into the eternal now, your patient would have an instantaneous healing. Jesus lived in the eternal now, that's why his so-called patient's recovered instantly. He brought them from a concept of time, to the real eternal now, in an instant. While they were in his consciousness they felt that miracle of instant healing. Jesus taught them that, few there be who can follow the straight and narrow, and few there would be who might find it, because the straight and the narrow is the now. Now gives us a total new world. In now, we find the secret way. Only now, only now is God. If you want God, you have to go to now. Now is Spirit, now is the Kingdom, now is not yesterday, now is not tomorrow, now is not a second ago, or 1 second from now. How are you going to find now if you can't hold now right where it is? When you find that illusive now, you will find perfection in the Kingdom of God.

I challenge you to find now. I challenge you to accept that challenge, and we will find it together. In that split second, a panel opens in the atmosphere and you are out of time. Out of the universe, beyond you find the timeless, the now; me is gone, I am now. In the absence of me, Spirit functions. Thought is gone; no desires, no future, no past. In this eternal second,

which is the same as the infinite now, your daily bread flows in abundance, regeneration comes, fulfillment is continuous. Look forward, anticipate the breaking of time and the open door which embraces you, in which the now engulfs you, when you experience it, you experience God.

We are going to break through the illusion of time very frequently. It will come slowly at first, but it will accelerate. We will be in the reality, which is all around us awaiting our perception, and we will practice the presence of God, without opposite. We will make God the center of our life. We will see God's perfection in all things. You will begin to experience these moments when the hypnosis parts like a veil. When these moments becomes more frequent, you're close.

I'd like to suggest that between now and the Chicago seminar, you work several hours a day, well, several hours a week, on getting out of time. It's a blank wall at first, but when the wall starts tumbling down, you'll know that you're more than halfway home.

This series so far, has revealed that spiritual progress has no closed end, the end is open. I believe we've come a long way.

In Revelation, our responsibility is indicated by the depth of the insight we can receive and as we receive it through Christ revelation, we must share it with the outer world. We must ask ourselves, "What am I here to do? What am I trying to do?" As for healing, if we have patience, we are not trying to bring them good health, they have it. We are trying to open up their being to a new way of life so that they see it. We are freeing man from the world mind, by freeing ourselves. This is a beautiful process! You are leading your patient's to understand that they are God.

You can't do it all at once, but you can start in your family. You certainly can train your children to know the truth quietly, silently, within themselves. You can train them not to broadcast, not to go out into the school and shout, "I am God." You can train them that other people do not know. A child's' mind is open; open for your teaching. And you become a healer to your family and you have a responsibility to them, which you didn't know you had. No you don't pile them in the car and drive them to the hospital or the doctor. Your responsibility is to teach them truth. Not to sit them down and insist that they learn, but to intrigue them with truth. Wet their appetite. Let them ask you questions. Show them how the questions are solved. Always a finger to their lips and to yours. Yes we have a responsibility as healers. We can train maybe two, three, five hundred healers, people who are not hypnotized. You see, that's our subtle purpose. When they are not hypnotized, when they can face universal beliefs, when they can stand in their own Christhood, knowingly. And so you must be an example. You must be trying to live the Christ way.

I wish to assure you that certain things will happen. Oh you will go so long and you will think, "when, when, when do I enter the Kingdom? How, how, do I enter the kingdom?"

Where, where, can that Kingdom be?" Obey My commandments, abide, dwell in the Secret Place. Faithfully, be assured you have a trustworthy teacher. Christ within is on the job throughout eternity; take advantage of It.

Let us meditate now with the firm knowledge, that I am Christ. I am Christ. I can never die. Wherever I go, Christ is within me, and whoever I see, Christ is within him, within her. Why have I lingered in judgement of a so-called enemy? Haven't I known I was violating God's divine law? I was looking at God, I was seeing a man.

*The End*
